SPECIAL RULES FOR JUNIOR ANGUS

1. The American Angus Association, 3201 Frederick Avenue, St. Joseph, MO, will participate in premiums offered in individual classes for junior Angus heifers as included in its standard show classifications, according to the premium schedule based on the number of head shown. The Association contributions will be included in the premium checks issued by the show.

2. A minimum of fifteen (15) head must be shown in the junior Angus heifer class to receive American Angus Association premium participation.

3. To be eligible for Association premiums heifer entries must be recorded in the sole name of the junior exhibitor and the issue date on the registration certificate must conform to the individual show's requirements regarding ownership. The Association's contribution is included in the total premiums listed in each class.

4. The animals must be judged by the American system of judging (they must be placed numerically and the ribbons and premiums awarded in the same manner). The American Angus Association does not offer financial assistance or awards on any show judged under the Danish or group system of judging.

5. Premiums from the Association are paid by registration number. Therefore, all cattle should be registered at the time of entry to make certain they receive the Association's portion of premiums. The Association does not pay a percentage on premiums offered in championship classes.

6. Exhibitors must have the original registration certificate on each animal available for inspection at the show.

7. Any animal, upon check-in, which does not have a legible tattoo corresponding to its registration certificate, is ineligible to show. Once disqualified due to an incorrect or illegible tattoo, animals cannot be re-tattooed and rechecked at the show.

8. If a recorded parent is excluded (as a parent) as a result of blood type, the owner may request, at his own expense, the Association to determine the actual parent. Failure to determine the sire and dam disqualifies the animal's eligibility in the Angus Herdbook, and the registration certificate becomes null and void. Any animal with a nontraditional blood type is ineligible for the Angus Herdbook.

9. The recorded sire and dam must qualify as parents of the sampled animal through blood chemistry. If a recorded parent is excluded (as a parent) as a result of blood type, the owner may request, at his own expense, the Association to determine the actual parent. Failure to determine the sire and dam disqualifies the animal's eligibility in the Angus Herdbook, and the registration certificate becomes null and void. Any animal with a nontraditional blood type is ineligible for the Angus Herdbook.
