| TEKS      | §113.18. Social Studies, Grade 6, Beginning with School Year 2011-2012.  
(3) Geography. The student uses geographic tools to answer geographic questions. The student is expected to:  
(A) pose and answer geographic questions, including: Where is it located? Why is it there? What is significant about its location? How is its location related to the location of other people, places, and environments?;  
(B) pose and answer questions about geographic distributions and patterns for various world regions and countries shown on maps, graphs, charts, models, and databases;  
(C) compare various world regions and countries using data from geographic tools, including maps, graphs, charts, databases, and models; and  
(D) create thematic maps, graphs, charts, models, and databases depicting aspects such as population, disease, and economic activities of various world regions and countries.  
(21) Social studies skills. The student applies critical-thinking skills to organize and use information acquired through established research methodologies from a variety of valid sources, including electronic technology. The student is expected to:  
(A) differentiate between, locate, and use valid primary and secondary sources such as computer software; interviews; biographies; oral, print, and visual material; and artifacts to acquire information about various world cultures;  
(B) analyze information by sequencing, categorizing, identifying cause-and-effect relationships, comparing, contrasting, finding the main idea, summarizing, making generalizations and predictions, and drawing inferences and conclusions;  
(C) organize and interpret information from outlines, reports, databases, and visuals, including graphs, charts, timelines, and maps;  
§113.19. Social Studies, Grade 7, Beginning with School Year 2011-2012.  
(b) Knowledge and skills.  
(1) History. The student understands traditional historical points of reference in Texas history. The student is expected to:  
(C) explain the significance of the following dates... discovery of oil at Spindletop.  
(7) History. The student understands how individuals, events, and issues shaped the history of Texas during the 20th and early 21st centuries. The student is expected to:  
(A) explain the political, economic, and social impact of the oil industry on the industrialization of Texas;  
(B) define and trace the impact of "boom-and-bust" cycles of leading Texas industries throughout the 20th and early 21st centuries such as farming, oil and gas production, cotton, ranching, real estate, banking, and computer technology;  
§113.20. Social Studies, Grade 8, Beginning with School Year 2011-2012.  
(b) Knowledge and skills. |
(5) History. The student understands the challenges confronted by the government and its leaders in the early years of the republic and the Age of Jackson. The student is expected to:

(A) describe major domestic problems faced by the leaders of the new republic such as maintaining national security, building a military, creating a stable economic system, setting up the court system, and defining the authority of the central government;
(B) summarize arguments regarding protective tariffs, taxation, and the banking system;
(C) explain the origin and development of American political parties;

(10) Geography. The student understands the location and characteristics of places and regions of the United States, past and present. The student is expected to:

(A) locate places and regions of importance in the United States during the 17th, 18th, and 19th centuries;
(B) compare places and regions of the United States in terms of physical and human characteristics; and
(C) analyze the effects of physical and human geographic factors on major historical and contemporary events in the United States.
United States in the Mid-1800s

Industrial development expanded.

?

Overcrowding, pollution, and crime became widespread.

Reform movements were organized to address social problems.

Which sentence best completes this diagram?

**F** Cities grew rapidly.

**G** Demand for artisans increased.

**H** Farms experienced a shortage of labor.

**J** Government regulation of factories increased.

---

13 One environmental consequence of the large-scale cultivation of cotton in the South was —

**A** widespread soil exhaustion caused by decades of farming

**B** drought caused by overuse of river water to irrigate farmland

**C** air pollution caused by the use of cotton gins

**D** widespread water contamination caused by fertilizer runoff

| **Struggling Learners**                  | The struggling learners may have 3 major points and 2 minor points on their timeline, depending on the student.  
|                                          | The struggling students may define 3-5 vocabulary words on their foldable. |
| **Advanced Learners**                    | The advanced learners will be required to have 7 major points and 5 minor points on their timeline.  
|                                          | The advanced students will have 10 vocabulary words on their foldable. |
| **Helpful Links**                        | Ocean Energy |
| **Engage**                               | Start the lesson with seed questions. What is oil? How is it used? Why is it used? Why is it important? Has it always been around or is it a recent discovery? What are other oil products or byproducts? How can oil benefit us? Give the students five minutes to do a critical write to get their thoughts and answers on paper from the questions. |
| **Explore**                              | Give the lesson over Spindletop. Get into the power zone every five to ten minutes. The students need the basics, build on their prior knowledge of what their answers to the bell work questions were. This is the time where the main lesson will be given and all vital information will be told, read, and discussed. The main topics are the impacts that the Spindletop discovery had on the social, political, physical and, economical factors of the time period. |
| **Explain**                              | Check for understanding. Ask students questions about the lesson so far. Analyze and investigate to see if it is necessary to reteach any parts. Students will be given directions for the foldable and timeline. They are to to create a timeline with 5 major points and 3 minor points over this subject and time period. The foldable will be of key terms, there will be a list that is provided. |
| **Elaborate**                            | This is the time that the students will create their foldable and timelines. They will have the opportunity to bounce ideas off of two people in their group. However, each student is required to turn in one foldable and one timeline. |
| **Evaluate**                             | The teacher will grade the timeline and foldable based on the amount of effort that the students put into them. The students were required to add 5 major points and 3 minor points on the timeline. They were also required to create a foldable of 5 vocabulary words. They were to choose five from the list on the board and give definitions in their own words based on how these words were used in the lesson. If the foldable is not done it can be finished the next day. |
