IAFE (INTERNATIONAL ASSOCIATION OF FAIRS AND EXPOSITIONS) NATIONAL CODE OF SHOW RING ETHICS

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honesty and dignity in the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE National Code of Show Ring Ethics," fairs and livestock shows may have rules and regulations which they impose on local, county, state, provincial and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards, and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competitions at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events: **(Please read and be familiar with the following)**

1. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event. If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animals either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise.

At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.

5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, conformation, or appearance, except external applications of substances to the

- hooves or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal is prohibited.
6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
 7. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
 8. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
 9. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
 10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including fairs and expositions and any special notices to members.
 11. The act of entering of an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

ANIMAL MANAGEMENT

The showing of unethically fitted livestock is prohibited. Unethical fitting shall be deemed to mean any physical or physiological attempt to alter the natural conformation, musculature or weight of an animal by use of injections or ingested material not conducive to the continued health of the animal or marketability of animal carcasses. Animals showing, in the opinion of the judge, signs of having been unethically fitted will be disqualified. As a condition for participation in the stock show, every exhibitor and their family must agree to submit any animal entered by them to inspection by a Veterinarian appointed by the management, and agrees to have such animal submitted to any tests as may be designated and requested by the Veterinarian and Show Management, and agrees that the conclusion reached by the veterinarian as to whether such animal is unethically fitted shall be final, without recourse against the Stock Show or any of its officers.

ANIMAL TESTING

The showing of any animal that has been administered any quantity of diuretic, unapproved growth stimulant or other unapproved medication or drug, or that has not been properly withdrawn from approved drugs is prohibited. Unapproved is deemed to mean not approved by the Food and Drug Administration (FDA) and/or the U.S. Department of Agriculture (USDA) for that species. As a condition for participation in the Show, every exhibitor and their family must agree to submit any animal entered by an exhibitor to inspection by a veterinarian appointed by the management, and agrees to have such animals submitted to any tests as may be designated and requested by the veterinarian. The Show specifically reserves the right to have tissue, blood or urine laboratory analysis made on any animal entered for competition. The conclusions reached by the veterinarian, as to whether such animal has been administered a diuretic, unapproved growth stimulant or other unapproved medication, or has not been properly withdrawn from approved drugs shall be final, without recourse against the Stock Show or any of its officers. An exhibitor and their family or an animal producing an analysis with any quantity of diuretic, unapproved growth stimulant or any other unapproved medication or drugs will forfeit all rights and privileges to exhibit livestock in the future at the Stock Show.

In addition, the show specifically reserves the right to have DNA sample(s) (hair) and/or retinal images withdrawn and analyzed on any animal entered for competition at any time. Show samples collected that do

not match the original DNA samples or retinal images submitted for nomination, will be disqualified. Owners of animals disqualified by unmatched DNA samples or retinal images will be banned from further competition at the AKSARBEN Stock Show.

ATTENTION: USE OF DRUGS

The AKSARBEN Stock Show has the right to test any animal at any time. The use by non-veterinarians* of animal drugs or other substances in any manner other than in accord with the labeling approved by FDA is a violation of Federal Law. Exhibitors and exhibitors' parents and/or guardians agree that:

- They are absolutely and completely responsible persons for the care and custody of their animals, including the time while they are at the AKSARBEN Stock Show;
- The AKSARBEN Stock Show shall be entitled to disqualify an exhibitor and their family whose animal tests positive for any drug, even if the exhibitor and the exhibitor's parents or guardians and family are innocent of any wrongdoing and did not administer the drug;
- The drug test results of the testing laboratories are final and binding upon the exhibitor and the exhibitor's parents and/or guardians and family. Even if the source of the drug is unknown, the AKSARBEN Stock Show shall be entitled to disqualify the exhibitor and their family.

* Abuse of the extra-label privilege by veterinarians is unethical and is subject to serious consequences such as license revocation.

All exhibitors and parents will complete and sign an affidavit and statement of disclosure related to animal health care products used prior to exhibition. These will be collected at the time the exhibitor picks up their Exhibitor Packet at the Livestock Office and reviewed by show veterinarians.

Animals required to be harvested after the Show and receiving treatments before, during or after the exhibition which will not allow immediate harvest will be quarantined at a location determined by the show management and state veterinarian. All expenses will be the responsibility of the exhibitor and their family including transportation to harvest.

COUNTRY OF ORIGIN LABELING (COOL)

The 2002 and 2008 Farm Bills amended the Agricultural Marketing Act of 1946 to require retailers to notify their customers of the country of origin of muscle cut and ground meats including beef, veal, lamb, pork, chicken, and goat meat. Any person engaged in the business of supplying a covered commodity to a retailer, whether directly or indirectly (i.e., including, but not limited to, growers, distributors, packers, and processors), must make information available to the buyer about the country(ies) of origin of the covered commodities. Records that identify the immediate previous source (if applicable) and immediate subsequent recipient must be maintained for 1 year from the date of the transaction. Packers and processors rely upon producers to provide country of origin information to initiate country of origin designations.

Country of Origin (COOL) forms will be required for all animals going to Harvest. The Stock Show will provide the proper forms for Exhibitors to complete.

INSURANCE

All beef, sheep, goats and swine will be insured through a policy with Hartford, our livestock insurance company. All livestock (beef, dairy, sheep, goats and swine) will be covered from the time they arrive at AKSARBEN until unloaded at cooperating packers or loaded by the exhibitor at the Stock Show to take home, for their market value only.

EXHIBITOR INFORMATION

SUBSTITUTE SHOWMEN

- Fitting and exhibiting of project livestock is an important objective of the 4-H project plan. Excusing a member from personally exhibiting his animal(s) defeats one of the important objectives of 4-H work. Hence, the management does not approve the use of substitute showmen except in extreme cases.
- If a 4-H member is injured or is seriously ill at the time of the show or shall have been called for active duty in the Armed Forces after having started a project, the project may be continued and the animal may be exhibited in the name of the original club member.
- **The substitute showman must be a 4-H member entered at the current year's show and approved in advance of the show by the exhibitor's State 4-H Department representative or the AKSARBEN Executive Committee.**
- **Forms for the approval of substitute showmen may be obtained from the Livestock Office. These forms should be filled out completely and approved in advance before showing. If the request is approved, the form should be handed to the clerk checking the class into the show ring.**
- An exhibitor who has more than one animal being exhibited in a particular class or is participating in the Judging Contest or Quiz Bowl, need not secure approval for another eligible showman to exhibit one of his animals, but must notify show officials of the additional showman.

DRESS CODE

- A Special AKSARBEN T-shirt will be furnished at no charge to each exhibitor after check-in at the Show, and is the only shirt to be worn by the 4-Her while exhibiting their stock. Additional T-shirts may be purchased at the Livestock Office.
- For beef, sheep, goat and market swine exhibitors, dark blue jeans are preferred. Any garment with sleeves or collars extending beyond the T-shirt cannot be worn. **Exhibitor T-shirts must be completely tucked in. All exhibitors are required to wear their 4-H uniform during the auction sales. Jewelry shall be kept to a minimum while exhibiting livestock projects.**
- Showmanship judges will expect exhibitors to wear appropriate clothing and foot wear when showing their animals and proper dress will be included in their selection decisions.
- No head gear, including head bands, will be worn in the show ring. Special apparel rules apply to the 4-H Horse Division.
- It is the responsibility of the exhibitor to keep his/her wearing apparel clean and presentable.
- Exhibitors shall not display local, county, commercial or other identification, except official 4-H and such identification as the show may require, while showing their animals for official judging.

2018 HEALTH REQUIREMENTS

Nebraska Department of Agriculture – State Veterinarian's Office
301 Centennial Mall South, Lincoln, Nebraska 68509-4787
Phone: (402) 471-2351

If Vesicular Stomatitis (VSV) is detected in Nebraska or any other state, additional requirements may be put in place.

The Nebraska State Veterinarian has been assigned as the official veterinarian for the AKSARBEN Stock Show. Veterinarians and inspectors (assigned staff) will be checking in exhibited animals. For animal health information, call Animal and Plant Health Protection at (402) 471-2351.

Livestock disease control is vital for the livestock industry in Nebraska and the nation. Biosecurity is a key component of controlling diseases. Anytime animals are comingled, the chance of spreading disease is multiplied and so is the need for heightened biosecurity. Recent outbreaks of Equine Herpes Virus 1 (EHV-1) at equine exhibition events in the U.S., requires attention to proper biosecurity. To help prevent the spread of disease in the swine industry, it is the recommendation of the State Veterinarian that the non-terminal exhibition swine not be in contact with terminal exhibition swine. To that end, it is recommended non-terminal and terminal swine be exhibited on separate days and separate areas.

General Health Requirements for all Animals

Under no circumstance may animals under quarantine be exhibited.

Only animals not showing signs of infectious or contagious diseases will be allowed to show.

All animals entering the AKSARBEN Stock Show (Fonner Park) will be subject to examination by an AKSARBEN Veterinarian or a representative of the State Veterinarian's Office upon arrival and/or during the show. Any animal showing evidence of infectious, contagious, or communicable disease may be immediately withdrawn from the Show and held in quarantine at owner's risk and expense until properly treated and recovered or properly released to return to owner's premises following treatment.

Policy on Ringworm, Warts, and Abscesses:

- Animals that have active ringworm visible warts, or abscesses, will not be allowed entry into AKSARBEN for exhibition.
- The inspecting veterinarian may judge the ringworm to be inactive if the lesion is not encrusted and hair has begun re-growth in the area and is so stated on the Certificate of Veterinary Inspection (CVI).
- Animals with warts that are visible by a hands-off inspection will not be allowed to remain on the premises.
- Animals that have visible abscesses will not be allowed to exhibit and will not be allowed to remain on the premises.

Certificate of Veterinary Inspection (CVI)

All animals (**excluding poultry**), exhibited must be accompanied by a CVI and shall have official identification listed on the CVI. Reading official identification without proper restraint can be a safety concern to exhibitors, AKSARBEN staff and assigned staff of the State Veterinarian. **Accessory ID devices (4-H tags, etc.) are more easily read, but need to be listed and correlated to official identification (steel tags, tattoos, or RFID tags) on the CVI.**

ANIMALS MUST BE INSPECTED AND CVI'S MUST BE ISSUED, BOTH WITHIN 30 DAYS OF EXHIBITION. SHEEP AND GOATS MUST HAVE CVI'S ISSUED WITHIN 15 DAYS OF EXHIBITION.

ELIGIBILITY

Only exhibitors showing their own animals that are entered will be considered in the Showmanship Contest. Exhibitors may not show a sibling’s animal in the showmanship contest. Previous first place winners in the same AKSARBEN Showmanship division are ineligible to compete.

BASIS FOR JUDGING

Judging is based on preparation of animals for the show, their apparent training and the appearance and behavior of the showman. Minor technical points are not to be over-emphasized, nor do minor infractions disqualify. Primarily it is the skill of the showman in presenting their animal before the judge that counts while the individual excellence of the animal does not.

Each Showmanship Judge may or may not give oral or written tests on production in the finals.

PROCEDURE

- Showmanship for Market Beef, Feeder Calves, Breeding Beef and Dairy will be conducted immediately following the conclusion of the show. Showmanship for Breeding Lambs and Market Lambs will be conducted together immediately following the Market Lamb Show. Showmanship for Breeding Goats and Meat Goats will be conducted together immediately following the Meat Goat Show. Showmanship for Market Swine will be conducted at the scheduled time.
- Any exhibitor who filled out the Showmanship Entry Form and turned it in at the check-in line is eligible to enter the contest when their animals are officially checked in at the AKSARBEN Stock Show. Entered exhibitors will be randomly assigned to showmanship groups of equal numbers for preliminary judging with semi- finalists being selected at that time.
- Showmen will select one of their animals entered in the division when participating in the showmanship contest. If an exhibitor violates a grooming rule, that member is not eligible to participate in showmanship activities. The Division Superintendent may disqualify any exhibitor from the showmanship contest if they display unsportsmanlike conduct anywhere on the Show grounds.
- All exhibitor numbers will be attached to the exhibitor’s back with safety pins.
- Showmanship judges will select 1st place thru 5th place winners in each species.

AWARDS

The AKSARBEN Foundation will present \$150 to the Champion Showman, \$100 to the Reserve Champion Showman and \$50 to the Third Place Showman. Plaques will be presented to the 4th and 5th place exhibitors.
