Ingredients

Wheat Middlings, Rice Hulls, Steam Flaked Corn, Oats, Dried Distillers Grains w/solubles, Cane Molasses, Vegetable Oil, Propionic Acid, Final Glo, Salt, Animal Fat, Ferrous Sulfate, Manganese Oxide, Zinc Oxide, Copper Sulfate, Sodium Selenite, Manganese Sulfate, Calcium Iodate, Cobalt Carbonate, Mineral Oil, Kaolin, GHP 2, MINTREX, Mold Inhibitor, Vitamin A Supplement, Vitamin D3 Supplement, Vitamin E Supplement and calcium carbonate.

Feeding Directions

Feed to horses at the rate of .5 to 1.5 lbs. per 100 lbs. bodyweight depending on the quality and quantity of other feedstuffs available and the intended use of the horse. Do not feed free choice to any animal. Provide good quality hay or pasture.

CAUTION

Do not feed to sheep due to copper levels in this feed.

IMPORTANT MANAGEMENT PRACTICES: Always provide a fresh source of clean water, salt and free choice minerals at all times. When making any change in an animal's diet, plan a 7 to 10-day transition period. Do not allow feed to stay in feeder for a period of longer than 3 days. When feeding large amounts of this feed (over 5 pounds per day) split the feeding amount into two different feedings to reduce the incidence of colic. Poorly managed feeding programs can lead to nutritional disorders.

This feed is suitable for mature horses on pasture and horses with a light work load.
