## Ingredients

Processed Grain By-Products, Roughage Products, grain Products, Plant Protein Products, Calcium Carbonate, Molasses Products, Propionic Acid, Salt, Animal Fat and Vegetable Oil with Ethoxyquin, Zinc Oxide, Manganous Oxide, Ferrous Sulfate, Sodium Molybdate, Ethylenediamine Dihydriodide, Sodium selenite, Cobalt Carbonate, Vitamin E Supplement, Niacin supplement, Calcium Pantothenate, Vitamin A Supplement, Riboflavin Supplement, Menadione Sodium Bisulfite Complex, Biotin, Vitamine D-3 Supplement, Pyridoxine Hydrochloride, Vitamin B-12 Supplement, Thiamine Mononitrate, Folic Acid.

## Feeding Directions

Feed to beef cattle, sheep, goats, or mature horses in amounts necessary to maintain desired body condition. Always provide ample good quality hay or pasture and plenty of fresh, clean water at all times. Make adjustments in feed slowly.

This is a pelleted feed that is great for producers who are searching for a Non-GMO option and feeding a wide variety of livestock species and desire the simplicity of purchasing one feed to fit many needs. Granted, each livestock species' needs can be met more efficiently with a feed for its specific needs, this one product will do well across the board and provides an added layer of convenience. It is great for any class of cattle, acceptable for horses and donkeys and fine for most sheep and goats. While it will meet the needs of the others, generally young lambs and goat kids need a bit more protein and energy. They can all eat this feed, but

the younger livestock may need an additional supplement to perform at a maximum level.
