The first son by our Jaxon bull that we have offered. Nice combination of Candaian and American genetics. This bull should work wherever he goes, whether on purebred cows or commercial cows. Calving ease built in.

The greater the distance,

the greater the opportunity.

We started a little more than a hundred years ago. A single wire strung from one fencepost to the next, a phone line bridging an impossible distance. We set out to connect one family to another and then another, until eventually it touched us all.
