Bonner County 4-H Program

The Bonner County 4-H/Youth Development Program is based on providing all interested county youth the opportunity to acquire knowledge, life skills, and attitudes that enhance their lives. Our major goals are to provide both formal and non-formal educational opportunities in an atmosphere of community focused learning. 4-H develops skills that benefit youth throughout life. 4-H fosters leadership and volunteerism in youth and adults, and it provides opportunities that strengthen families and communities.

The Bonner County 4-H Program is managed under the direction of the University of Idaho Extension System. The strength of our educational efforts with the Bonner County 4-H youth program depends on the dedication and support of local 4-H volunteer leaders and support from the community. Presently, our youth educational program has over 500 participants and over 100 volunteer leaders. Community support and other friends of 4-H, too numerous to list, are also a vital part of the 4-H program in this county. A big thank you to all who take the time to make a difference in the life of a child! Contact the Extension Office at 208-263-8511 to receive information about joining 4-H.
