

# Volunteers of the Year: Tim & Cheryl Cary

Tim and Cheryl Cary are so honored for being selected Volunteers of the Year. They do what they do because they love helping people out whenever they can. Everyone should try to volunteer at least once in their lifetime. It will definitely make a difference.

Tim and Cheryl are lifelong residents of Bonner County, who have strong ties to the community and the fairgrounds. Both of them have had the privilege of guiding young men and women as 4-H project leaders.

Tim has always been willing to help out with many improvement projects throughout the

years at the fairgrounds; roof repairs, general maintenance of buildings, setting up for events and rodeo arena repairs, just to name a few. It's never stopped him from helping out whenever something is needed done or helped with.

Tim is still involved with the Bonner County Rodeo and has been since the mid 90's when Tim and Cheryl, along with a couple of friends, basically generated funding and sponsors to start the Bonner County Rodeo. Since then, the committee has grown with numerous volunteers who put on an outstanding event each year. They are both still on the Rodeo committee.

Cheryl is the fourth generation in the restaurant business, so when she was approached about volunteering to manage the 4-H food booth, she didn't hesitate to want to help out. She takes so much pride in the food booth and all of the volunteers who make it possible to be successful year after year. It takes a lot of countless hours and hard work, but very gratifying to see the end results. She was also a local chairman of Jr. Miss for over 23 years, volunteering for local and state activities. Tim and Cheryl have such fond memories of friends throughout the years that they have been involved with in the community that will last a lifetime.

## Engineers, Surveyors, Planners & Inspectors

- ◆ Subdivision Design & Platting
- ◆ Surveying & Site Planning
- ◆ Water, Sewer & Road Design
- ◆ Structural Design
- ◆ Residential Septic Systems
- ◆ Building Inspection Services

Providing Quality Services Since 1919
