

Our next Creative Living project is from Deborah Coccoli.

Deborah says, "I started painting rocks this past January. I've picked some smooth rocks up from Colorado Materials, Inc. in Longmont and I find interesting rocks while walking. I use acrylic paint and Posca ink pens and seal the rocks with a UV and water-resistant varnish. The rocks can then be placed indoors or out.

I joined the Longmont Artist Guild a little over a year ago and 2019 was the first year I participated in the fair with LAG. I have submitted oil paintings and pastels, and was looking forward to submitting my painted rocks this year."
