

"My name is Jennifer Clark and my photography business is Espresso Yourself Photography. I only recently got involved with the Longmont Artist's Guild which lead me to submitting to the fair last summer. I won two ribbons my first year, receiving first place in the Mammals category for my Hiding Fox Kit photo, and winning People's Choice for the Open category for my Milky Way over String Lake photo. I was really excited for the Fair this year, so I am glad we have some virtual shows.

I'm a digital photographer, so the creation of the photograph may be the easiest part of my process! For this photo, I hiked a total of 10 miles (5 in, 5 out) to the American Lakes in State Forest State Park near Walden, Colorado. We did so in the fall, and I was pleasantly surprised at the variety of color in a non-traditional way (since most fall photos in Colorado include Aspen). Once I shot the photo, I then processed it in Lightroom and Photoshop."
