# COMPACT CAR RULES

1. Any rear wheel drive car with a wheel base of 107" or less. Any front wheel drive car with a wheel base of 108" or less.
2. Battery and gas tank must be safely mounted inside the car. Gas tank must be made of metal or be a racing specific style fuel cell.
3. May have 4-point cage with 4" diameter material or less. You may have one down bar on each side of the car from cage to floor. You may have a floating gas tank protector off the seat bar, but must be 4" away from any sheet metal.
4. You may bolt, chain or weld any single factory style car bumper on the car. Bumper may be seam welded but not stuffed.
5. Radiators must be mounted in factory location if used. No Radibarrels.
6. Any 4 or 6 cylinder engine. No v-8 engines. Transmission crossmember must be factory style or 2x2x1/4" square tubing and must have 1/2" hole drilled to verify that it is hollow.
7. Top frame seam only, may be welded from firewall forward.
8. May weld, bolt, wire, or chain doors and trunk shut from outside only. Must have at least 1 window bar in front windshield area. You may have a window bar in the back window, but must not connect to cage in any way, and must connect to front half of the trunk lid.
9. Any 4 or 5 lug rearend may be used as long as it originally came under a compact car. No full wheel centers. Small centers are okay. All suspension may use spring spacers or weld suspension without more than 6" of 2" wide steel strap or tubing, per side of the car. Tie-rods may be welded without the use of any extra metal.
10. Pre-ran cars may have a total of eight 6"x6"x1/4" plates per car (4 per side.)

**Entires limited to the first 8 paid entires**
