If there is a conflict with the show times, class schedules will not be changed to accommodate exhibitors.
3. All sheep and goat exhibitors will be required to show proof of participation in the Scrapie Program. All animals must have appropriate required Scrapie ID and/or paperwork that supports compliance.
4. Exhibitors are limited to two entries per class.

13. Exhibitors are required to take **all refuse to the designated dump site. Failure to do so will result in forfeiture of premiums.**
14. All livestock, including horses which are not entered as an exhibit, must be stalled and a stall fee paid. Check with Fair Management for stall space.
15. Fair Management reserves the right to reject any animal that appears to be unhealthy.

OREGON ORIGIN: No permits, health certificates or test required for cattle, sheep, goats and swine. All poultry including exhibition, exotic and game birds (except waterfowl, pigeons and doves) must be from a US Pullorum--Typhoid clean flock, or have negative test within 90 days prior to exhibition. A veterinarian or technician may be on hand to test all birds that have not been tested. There will not be a charge to the exhibitor.

This Specimen is “Organic”

The Land Products (Dept. N); Floral (Dept. P), and House Plants (Dept. O) exhibits will be in Carey Foster Hall in 2019. There is an effort underway to have a space on the entry ticket that will indicate if the specimen was raised in the classification of ORGANIC. This will allow the public to determine if the “Organic” specimens are an improvement over those not so classified.

Organic agriculture is growing and caring for plants in our yards without the use of synthetic fertilizers or pesticides. To have the classification of “Organic” in the U. S. all agricultural farms and products claiming to be organic must be guaranteed by a USDA-approved independent agency and meet certain guidelines. These guidelines will not be required to enter plant materials into the Crook County Fair this year. However, it will be up to the person entering to abide by the principles of organic guidelines that follow:

- Abstain from the application of prohibited materials (including synthetic fertilizers, pesticides, and sewage sludge).
- Prohibit the use of genetically modified organisms and irradiation.
- Employ positive soil building, conservation and manure management and crop rotation practices.

BEST OF SHOW, JUDGES CHOICE AND SUPERINTENDENTS CHOICE RIBBONS WILL BE AWARDED

Pre-registration forms with name, address and division are necessary to secure your entry number. You do not need to list classes until the day of entry. For easier entering, please have your entry number and entry tag filled out before coming into the Land Products area of the Floral Building.

- Entries are limited to one per specified age category.
- Unless otherwise indicated, entries are to be displayed on a good quality white paper plate with stiff edges or on Styrofoam meat tray.
- Items with root ball attached should have the root ball bagged in plastic or presented in jar or container that will hold water to maintain freshness.
- Herbs should be in water. Bring your own jars.

TIPS ON PREPARING YOUR EXHIBITS

Vegetables should be in the stage of development where they are suitable for marketing or eating. These, along with good conditions, are the main points on which entries are judged. Where more than one specimen is required, uniformity is important.

1. Gather your vegetables early in the morning or late in the evening to retain crispness and flavor. Wash root vegetables in cold water and cut the tops, where required, to within 1" to 2" of the base.
2. Refrigerate in a closed plastic bag.
3. Perishable items that might shrivel such as beets, carrots, beans, or radishes, etc. can be presented in a plastic bag on the required plate to maintain fresh appearance.
4. Peel away only damaged leaves on cabbage.
5. Harvest onions early to allow for curing. Remove no more than one layer of skin to clean. Leave 1" at top and trim roots to 1/4".
6. Dig potatoes early enough to cure well before the fair. Brush or wipe with soft cloth to clean. Beans should be tender and snap readily.
7. Root crops should be of medium size and uniform in length and diameter.
8. Sweet corn should be succulent and not beginning to be starchy.
9. Slicing cucumber should be firm but not ripe.

10. Summer squash and onions should be mature.

11. Ripe tomatoes should be fully red but still firm.

12. Eggs should be clean, uniform in size & color.

BEST OF SHOW, JUDGES CHOICE AND SUPERINTENDENTS CHOICE RIBBONS WILL BE AWARDED

RULES, REQUIREMENTS, & TIPS

1. All general rules of the fair apply in this department.
2. Exhibitor must grow horticulture exhibits specimens, Division 644 thru 687.
3. Plant material for flower arrangements, Division 632 thru 634, does not have to be grown by exhibitor.
4. Exhibitors of arrangements are encouraged to keep plant materials in fresh condition. Replace, or have someone replace wilted flowers and material. After judging, showmanship starts and continues throughout the fair. Assistants will freshen water regularly. We cannot provide space or facilities to store extra plant materials or items.
5. Exhibitors should provide clear glass containers for horticulture specimens.
6. Clerks shall place all horticulture exhibits. Assisted by a clerk, arrangers shall place arrangements.
7. Only accredited judges will be used.
8. One entry is allowed per class. Please refer to the following tips.
9. The presence of insects, disease, and damage caused by insects and disease shall disqualify entry. Because our clerks cannot always catch problems when exhibits are entered and placed, the exhibitor is responsible for carefully grooming and being sure his entries are free of insects, disease and damage. Good conditioning is necessary and important.
10. To hold specimens upright, bridge with clear plastic wrap, in container allowing ample space for water. (Loosely roll plastic wrap in a rope and gently pack it around plant stems at point fitting into mouth of container). Floppy specimens such as vines, etc. may be tied to small bamboo sticks or dowels, then braced upright with bridging.
11. Only fresh plant material (cut flowers and/or foliage) may be exhibited in horticulture classes. Horticulture specimens cannot be treated in any manner, but disbudding is required for some classes.
12. Horticulture exhibits include one (1), or three (3) specimens per class, the number are given. Unless specified, foliage is required for all specimens.
13. Gather flowers when temperatures are cool in mornings or evenings.
14. Place stems immediately in cool water.
15. Many fresh cut flowers should be conditioned by placing container in a cool place overnight.
16. To increase water uptake, use a sharp knife-cutting stem on a slant. Crush woody stems for at least 2 inches and stand in water overnight.
17. Chrysanthemums and roses must be quickly placed in tepid water 95-105F, same temperature to activate yeast. Protect with paper wrapping and place in refrigerator overnight.
18. Gladioli florets should be evenly spaced along stock at least 1/3 in bud, 1/3 just opening, and 1/3 fully open. About 60% of the stem should be flower head.
19. Condition dahlias and poppies by dipping cut end of stems into boiling water to a depth of 2 inches, keep immersed for 10 seconds. Then place in cool water. An alternative is to sear cut stems with flame. Use a paper collar of cardboard shield and protect foliage and blooms when conditioning flowers in boiling water, and direct flame away from bloom.
20. Annuals, include marigolds, asters, bachelor's buttons require only immediate placing in water overnight.
21. Horticulture specimens must be named correctly. Botanical names are not required.
22. Hollyhock stalks must be immediately immersed in warm water as they are cut. This starts the conditioning process. Then, split stems 4 or 5 inches from cut ends.
23. Condition delphinium overnight in cold water in a cool place. They can be wrapped in paper and placed in refrigerator (if shelves are removed) overnight.
24. Stems should reach deeply to bottom of container if possible. Remove only what foliage is submerged in water.
25. Exhibitors must place their arrangements in position desired for judging.
26. Because of space and attractiveness of show, it shall be necessary to move arrangements. ALL ARRANGEMENTS MUST BE EASY TO MOVE. Securely fasten all elements such as accessories, containers, etc. Care will be taken to replace each arrangement as exhibitor originally faces it. When arrangements include freely placed or standing accessories, all elements must be secured upon a solid base.

27. Unless specified in class description, do not use accessories in arrangements. An accessory is anything added to plant material, container, base, or in background. If used do not make accessory the focal point.
28. Do not place U.S. Flag (or flag symbols) within plant material, water, or container. The U.S. Flag can be used in an appropriate stand, placed beside the arrangement.
29. Unless stated in the class description, all arrangements shall not exceed, including base, a width of 18 inches, and depth of 16 inches.
30. There are four acceptable categories of plant materials described as follows:

Dried Plant Material. Naturally growing, air dried, or dried in borax, sand, or silica-gel, or freeze-dried preserving natural colors and characteristics.

Treated Plant Material. Naturally growing and treated with glycerin, antifreeze, color preservative, stained, dyed or colored using food coloring, for example.

Fresh Plant Material. Naturally growing, fresh cut, and cannot be treated.

Native Plant Material. Must be collected in a legal manner. Cannot be treated. Do not use artificial flowers or plant materials in arrangements, or silk, plastic, paper, wax fruit, etc. Exceptions by the judge can be made when there is no competition represented.

The undersigned agrees to indemnify, hold harmless and defend the Crook County Fair, Crook County, and the State of Oregon, and any suppliers, sponsors and each and every and all of their officers, directors, members, servants, employees, volunteers, agents or affiliates, of and from any and all loss, liability or damage arising out of, directly or indirectly, the participation of the undersigned or his child or children in the 2019 Crook County Fair Wild Ewe Milking Contest.

This release shall be binding upon the undersigned and the undersigned's spouse, legal representatives, child or children, heirs, successors and assigns, and should any term or other provision of this release be held invalid, illegal or incapable of being enforced due to any rule of law or public policy, all of the other conditions, provisions and paragraphs of this release shall nevertheless remain in full force and effect.
