General Clothing Design & Construction Rules

1. Please read and abide by The Erie County Fair and Creative Arts Department rules and regulations.
2. All entries must be pre-registered by Friday, July 20, 2018. Entries not pre-registered will not be accepted. For more information see the Important Entry Information page.
3. Condition of work must be clean, well pressed, on hangers, and not noticeably worn, stained or spotted.
4. No name labels allowed.
5. Hangers and garment bags must be labeled if you wish to have them returned. It is preferable that the exhibitors keep special hangers or garment bags, as storage space is limited.
6. All garments in this section must be handmade; purchased garments will **not** be accepted.
7. All patterns must have the exhibitors name printed on them.

NEW Add a “Creator’s Note” to your entry. When dropping your entry off include a one sided 4”x6” index card that contains: How many hours the project took to complete, any story that goes with the item, and the cost (\$0-\$50, \$51-\$100, more than \$100). This card is to be filled out in advance and will be attached to the entry ticket for fair patrons to read.

Judging Criteria

1. Even seams. All patterns use a 5/8 seam allowance unless otherwise stated. Even seams are very important in the way a clothing project fits or a craft project, such as a tote bag, looks. Uneven seams will not look professional.
2. Even stitches. This means no skipped stitches. Should a sewing machine be in need of a tune-up, it is very possible you will have skipped stitches. Another reason for skipped stitches is either the wrong needle is being used for the particular fabric, or you have a burr on the needle which will cause skipped stitches. Anyone making a project to be entered into a contest should be aware of this.
3. Excellent buttonholes. The placement of the buttonholes is as important as how beautiful the buttonhole looks. If your sewing machine makes unacceptable buttonholes, it may need a simple adjustment. The machine manual should explain how to adjust this. Some experienced sewers can make beautiful buttonholes by hand. If this be the case, it should be noted to the judge.
4. Choice of fabric. All patterns have fabric choices listed. This means that they have tested the particular pattern with the fabrics they suggest. This will help the consumer get the best results possible.
5. Coordinating colors is also important.
6. Detail. Decorative additions can add some bling to the project. It can be beads, trims, piping, cording, fringe, embroidery. Anything to add a little pizzazz to the project.
7. Lining. Lining clothing or home decorative project (drapes) takes an item from home made to professional. And practice is how you can get to that point.
