2. No artificial plant material is permitted in any exhibit.

5. For Botanical Arts Designs and Artistic Crafts, a card must be provided by the exhibitor listing plant material used in the design.
6. Outdoor Gardens (Section FBA) - all gardens are judged or critiqued for their overall effect of the garden design, which is of major importance. A pleasing design, expressed through a sense of unity among components, plants compatible to the environment and location, theme and appropriate selection and placement of components is also important. Each specimen within the garden must be clearly identified on a chart or diagram listing their correct binomial or genus, species and/or variety or cultivar and location in the garden. Within the garden, place a number label in each variety corresponding to the listed plants on your planting map. The gardens will be judged using the Combination Plantings and Gardens Scales of Points (2017 Handbook for Flower Shows, page 129).
