Welcome to Fountain Hills

I’m Mayor Linda Kavanagh and it is my pleasure to welcome you to Fountain Hills, a very special place to visit.

Surrounded by rolling hills, spectacular mountains and the beautiful Sonoran Desert, the Town of Fountain Hills is the most scenic, friendly communities in the United States.

We have world-class golf courses, luxury spas, outstanding dining and shopping, major art shows and galleries and lots of outdoor recreation. Of course, we are also home to one of the world’s tallest fountains.

Fountain Hills is a vibrant resort community with a relaxing small town ambiance. I invite you to be our special guest.

Get out of the Valley and into the Hills

The Fountain

At its full height of 560 feet, the Fountain in the center of Fountain Hills is higher than the Washington Monument. It is 10 feet taller than Notre Dame Cathedral, 110 feet higher than the Great Pyramid of Cheops in Egypt and three times as high as Old Faithful in Yellowstone Park. The Fountain is the focal point for community celebrations and the pride of its residents. If you happen to visit during the St. Patrick’s Day celebration, you’ll see the Fountain transform to bright emerald green. The Fountain is extended to its full height on special occasions. For everyday viewing, the Fountain reaches a height of 330 feet!

Landmarks

FOUR PEAKS – PURPLE MOUNTAIN MAJESTY

The lyrics “purple mountain majesty” could have been written for these peaks. They change with the light from lavender to violet to deep purple. Fittingly, the world’s finest amethyst is found high on its slopes. This mountain is one of the area’s highest points at 7,657 feet. Visitors and residents have grandstand seats for the daily spectacle of the sun rising dramatically behind Four Peaks.

MCDOWELL MOUNTAINS

Some of the oldest rocks in Arizona make up the McDowell Mountain Range to the west. The range’s highest is McDowell Peak, at 4,034 feet. The rounded mountain to the south is Fire

MT. MCDOWELL – FIREROCK

One of the most prominent landmarks near Fountain Hills and Fort McDowell is the jagged outline of Red Mountain, at 2,830 feet high. The deep red on its western flank is known as “Gunsight” because of its resemblance to the narrow slot in a fort used for firing at attackers. Its distinctive red color that glows dramatically in the last rays of day, lead some to call it FireRock.

Necklace Mountain, named when a fire burned down its slopes, encircling it. Native Americans found shelter here, as evidenced by petroglyphs and artifacts. Prospectors sought mineral wealth but discovered only limited amounts of gold, silver and copper.
