

Kosciusko County Community Fair, Inc.

For Immediate Release

May 30, 2019

On May 29, 2019, an anonymous entity which calls itself warsawfairfacts.com and fairaccuracy.com launched a newspaper ad and digital media campaign attack against the Kosciusko County Community Fair with false and misleading information.

On the surface it is hard to take their attack seriously since they refuse to put their name on it. While the Fair Board in contrast displays the names of its directors on its website, provides contact information and even invites the public to attend its monthly business meetings.

If you want the real facts, we encourage you to attend one of the monthly stated Fair Board meetings on the 2nd Monday of every month or talk to a current Fair Board Director. If you want to find out all the fake facts, go to your local coffee shop, social media and warsawfairfacts.com.

Sheal Dirck,
Treasurer
