## Welcome to ShoWorks Passport!

**Passport makes your fair entry easy!**

8-things a ShoWorks Passport does for you:

- ✓ Keep your information year-after-year
- ✓ Use a single login across all fairs
- ✓ Review current and historical entries in one place
- ✓ Reuse your past entries when making new entries
- ✓ Check-in entries upon arrival using the mobile app\*
- ✓ Get notifications on your mobile device when its time to show, last minute notices, and when your entries are judged\*
- ✓ View all your winnings and ribbons across all fairs from a virtual 'Awards Room' on your mobile device\*
- ✓ Optionally share your 'Awards Room' with your ShoWorks Passport friends as well as social media\*

...and it's free!      See a [list of fairs](#) that take ShoWorks Passport

\*requires dedicated app available winter 2019 for iPhones, Apple Watch, and Androids

Download on the **App Store**    GET IT ON **Google Play**

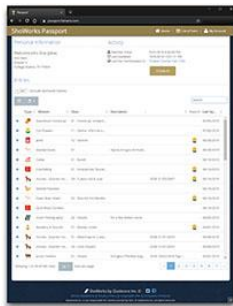

- **Notifications to Exhibitors**

Push notifications can be sent directly to exhibitors on their iPhone, Android or Apple Watch. We can notify groups of exhibitors about receiving hours, judging, announcements, etc. Automatically and instantly sends a notification to exhibitors whose entries have been updated or earned an award.

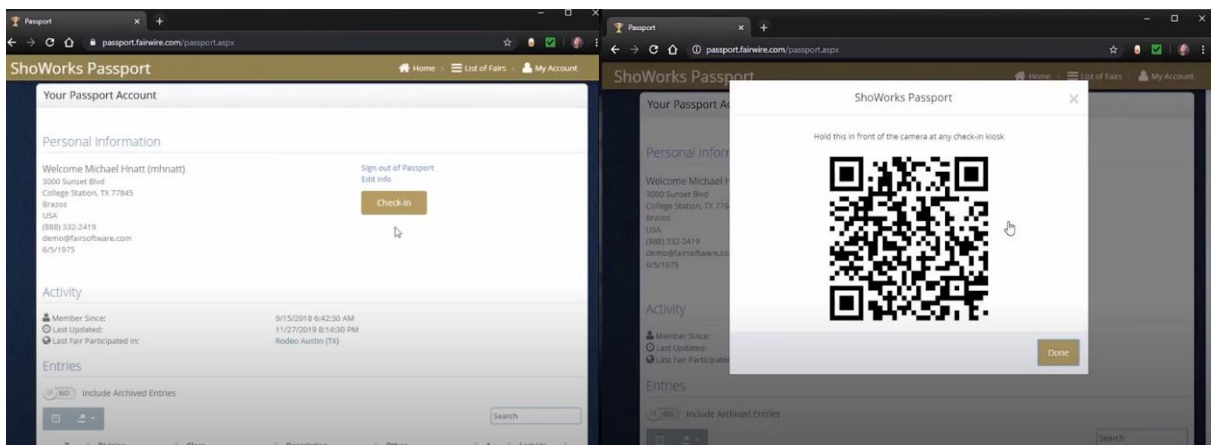

- **ShoWorks Passport**

Create your own, free, permanent account called a 'ShoWorks Passport' and keep up with your entries including seeing instant updates to those entries when changed by the fair. Account information can be kept year-to-year and across other fairs saving time and errors. Create entries across over 1,000 participating fairs in North America, directly from within the ShoWorks Passport app for iPhone or Android or a web browser.

- **Quicker Check-In Process**

Achieve shorter check-in lines by using the new mobile check-in feature. A QR code will be provided during this process for faster scanning upon arrival.

- **Virtual 3D-Awards**

From us to you, get something a little extra special. Now digital 3D ribbons and awards are automatically issued to exhibitors to keep as memorable tokens on their iPhone or Android mobile device. Exhibitors can even spin the award around to 'feel' the realistic award.
