California Agriculture Fair Season

On behalf of the state of California, I am pleased to welcome you to the 2018 season of California’s agricultural fairs.

The vibrant fair culture of livestock competitions, educational exhibits, exhilarating carnival rides, live performances, and local community events is important to California. Fair exhibits and activities at the fairgrounds provide a crucial link to the agricultural community and the California farmers and ranchers that are part of this tradition.

Each unique fair conveys a distinctive aspect of California’s heritage and values by displaying the local livestock, crops, artwork, baked goods, and crafts year-round. As a fair exhibitor, citizens rely on your expertise to showcase the resources that California provides to the nation and the world. Thank you for your participation and for playing a vital role in California’s agricultural community.

Sincerely,

EDMUND G. BROWN JR.
December 1, 2017

In the best of years, California’s fairgrounds are alight with not just fairs but festivals, gatherings and events of every stripe. From the simplest reception to the grandest gala, our facilities are central to our agricultural and multi-cultural communities.

Alas, in some of our communities, 2017 was not “the best of years.” Fires, in particular, were a focal point this past season and will remain so for many months as we recover and rebuild. As it turns out, though, our fairgrounds and our fair employees were just as central to their communities through these trying times as they are otherwise.

From Santa Rosa to Southern California, families fled and rescuers responded to a series of fires that was, in many respects, unprecedented. At one point, 17 of our California fairgrounds simultaneously served as emergency shelters, fire camps or both. Evacuees included approximately 2,000 people and 1,700 animals including all manner of livestock and pets – even a tortoise.

Our fairs mean so much more to their communities than just a celebratory week or two or three, once a year. Through our fairs and our fairgrounds, our agricultural communities have an opportunity to put our best foot forward. In my travels this year, both to annual fairs and through neighborhoods ravaged by wildfire, I’ve seen that firsthand.

In the best of years we would close with a sense of satisfaction and an optimistic look ahead at the exhibits and events to come. This year, though, we first must feel the weight of lives lost and a harvest marred by flame and ash. But we also remember the essential role that our fairgrounds, our workers and our farmers and ranchers have played in response and rescue and recovery. As you look ahead to the 2018 fair season, please accept my thanks for your service this past year, and for your continued readiness.

Yours truly,

Karen Ross
Secretary
The Board of Directors would like to welcome all the exhibitors in livestock, culinary, floriculture, hobbies, and fine arts. Your exhibitions are the results of many hours of preparation and represent the finest offerings of Kern County. Good luck with your projects and best wishes for a fantastic fair experience.

It requires many dedicated individuals and hard work to produce a successful fair. We are especially proud of our youth who utilize the opportunities provided by the fair to participate in various agricultural events and programs. Whether you are staff, a volunteer, exhibitor, sponsor, or visitor, we deeply appreciate your participation and support of the Great Kern County Fair.

The directors of the 15th District Agricultural Association are appointed by the Governor of the State of California. Directors provide leadership to represent the interests of the area served, and establish policy accordance with the laws of what fairs can and should do. The Board of Directors is actively involved throughout the year in a committee system to oversee the management for the Fair and other fairground events. Directors serve without compensation; the Association is a state agency supported in part by horse racing taxes, but the majority of revenue is self-generated.
September in Kern County . . . It must be Fair time! I want to extend a warm welcome to our county community and invite you to the Great Kern County Fair. We are very proud of our exhibits, livestock programs, concessions and the many wonderful entertainment that we have lined up for your enjoyment. We encourage you to be an active participant in the Kern County Fair, whether you are entering your favorite photograph, displaying a unique collection, or a livestock exhibit; there are many ways for you to become involved. We hope to see you in September at the Fair!

NEW STATE RULE FOR 2019:
In order to participate in a youth livestock program (excluding horse, cavies & dogs) at any California Fair, all exhibitors 9 years of age and older must obtain annual certification in the Youth for the Quality Care of Animals (YQCA) program. Those not certified are not eligible to participate at a California Fair.

Youth for the Quality Care of Animals (YQCA), to meet this new state requirement. Agricultural universities as well as partners in the agriculture industry designed this program. By the end of 2018 over 50,000 youth across the nation will have taken a YQCA course. YQCA courses are age and level specific which allow for changing content each year. The program is offered online for $12 at yqca.org. All registration, fees, and certification are managed through YQCA.

The YQCA program has many benefits to exhibitors:
- Increase the educational preparedness of exhibitors.
- Adds another layer of quality assurance to improve sportsmanship, animal wellbeing and food safety for animal purchasers.
- Helps demonstrate our commitment to the educational development of exhibitors.
- Provides a nationally available program that any youth exhibitor can access.

This program is becoming nationally recognized so by adopting this program it also allows exhibitors to use this certification for showing at other fairs besides Kern County Fair; such as the California State Fair.

Upon completion of the training; exhibitors will receive a certificate with a unique certification number. Exhibitors can email or print their certificate for show entries. Show managers will be able to utilize the public interface through YQCA to verify the exhibitors certificate number.

All exhibitors’ ages 9 and older (excluding horse, cavies and dogs) must have completed the YQCA certification by the close of entries for their given species.

Without the YQCA certificate number you will not be able to complete your entry and thus will be ineligible to show at the fair.
This Code of Ethics was developed IN COOPERATION WITH THE CALIFORNIA STATE 4-H, CALIFORNIA FFA ASSOCIATION, THE CALIFORNIA STATE GRANGE, WESTERN FAIRS ASSOCIATION, AS WELL AS OTHER AGRICULTURAL ORGANIZATIONS. We believe this code, when instituted, will help ensure that all exhibitors are on a level playing field, that animals are treated safely and humanely, that food safety is insured, and that a positive environment is maintained. This Code of Ethics applies to anyone exhibiting animals at the Kern County Fair. It includes Junior, as well as open class exhibitors who compete in structured classes of competition. All classes of livestock offered at the livestock event are included: Cattle (Beef & Dairy), Goats (Dairy, Meat & Pygmy), Horses, Sheep, Swine, Rabbits, Cavies, Alpaca, Llamas, and Poultry. This “Kern County Fair Code of Ethics” will be enhanced with additional rules and regulations, as new standards become necessary.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following practices or procedures are unacceptable and are defined as being deceptive, fraudulent, unethical, and inhumane in the care, fitting, preparation and showing of all classes of livestock. The use of any illegal drug is prohibited. Legal or illegal substances used to phenotypically alter the appearance of an animal entered in livestock events is prohibited (see Rule #4). Use of illegal drugs is considered a premeditated act. Furthermore, any information pertaining to the practice of illegal alteration of an animal will be turned over to the proper authorities for criminal prosecution.

The following is a list of guidelines all exhibitors must follow to enter livestock at organized competitive events.

1. All exhibitors must have viable proof (Junior Division) of ownership available to Fair and Livestock Officials at their request. Market animals (Beef, Sheep, Meat Goats, Swine, Dairy Cattle) must be owned and under exhibitor’s supervision according to established rules and regulations for the fair. This also includes all small market animals (rabbit and poultry). The official ownership date is the date shown on the bill of sale, unless the animal was bred by the exhibitor, in which case calving or birth records must be shown. Local rules will determine ownership requirements for non-market animals. Registered breeding livestock must show the exhibitor as the owner of the animal on the breed association papers or certificate.

2. No exhibitor will be allowed to show an animal which has been previously sold at an auction or sale as a market animal through another fair or livestock show, whether or not there is an actual change of ownership (progress level shows excluded). Any method used to misrepresent the age of an animal for a class in which it is shown is deceptive and considered illegal. Showing an animal for another individual by claiming ownership in order to show in a specific livestock class or event is prohibited. False ownership is illegal.

3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.

4. Animals shall be presented to show events where they will enter the food chain free of violative drug residues. By entering an animal in a livestock show the owner exhibitor, leader, advisor and/or person responsible voluntarily consents for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Random samples shall be collected whether or not the owner of the show animal is present. Animals not entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal’s performance or appearance at the event. If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or
externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory, to which it is sent, is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, leader, advisor or absolutely responsible person to prove otherwise.

5. Livestock shall not be exhibited if drugs administered in accordance with federal, state, local statutes, regulations and rules affect the animal’s performance or appearance at the event.

6. Any surgical procedure, injections or insertion of foreign material, substance or drug or the external application of any substance (irritant, counter-irritant or similar substance) which could affect the animal’s performance or alter its natural contour, confirmation or appearance of an animal’s body is illegal. This includes vegetable oil, silicone, air or any other substance used to alter the shape of the animal. Acceptable practices of physical preparation, which are allowed, include clipping of hair, trimming of hooves, dehorning or removal of ancillary teats.

7. The balancing of the udder by abnormal means which includes the use of a mechanical contrivance or the injection of fluid or drugs, setting the teats and/or occluding (sealing the ends) with a mechanical contrivance or use of a chemical preparation is illegal. Treating or massaging the udder or its’ attachment with an irritant or counter irritant is prohibited.

8. The use of inhumane showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivances or other similar practices are not acceptable and are prohibited. Other practices, unless under the written authority of a licensed veterinarian, that are not acceptable or prohibited include, but are not limited to, liquid diets for lambs, excessive shrinking, excessive exercising, tying animals with the feet off the ground, and electric stimulation.

9. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, breed classifiers, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.

10. No owner, exhibitor, fitter, groomer, trainer, leader, advisor or absolutely responsible person shall conspire with another person or persons to intentionally violate this Code of Ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this Code of Ethics. Violation of this rule shall subject such individuals to disciplinary action of Fair Management and considered final.

11. The application of this code of ethics provides for absolute responsibility for an animal’s condition by an owner, exhibitor, leader, advisor, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.

12. Show management reserves the right to require animal health certificates from a licensed veterinarian. Health inspections and diagnostic tests may be made before or after animals are on the livestock show premises for exhibitor and animal safety, or to inaugurate disease control procedures which may become necessary in emergencies as determined by animal health officials.

13. Any violation of the “Kern County Fair Code of Ethics”, State Rules, Kern County Fair Rules or Residue Avoidance Program, or specific rules as designated by the Kern County Fair will result in forfeiture of premiums, awards, disqualification, and will result in probationary status and/or loss of eligibility for future participation in organized livestock competition. Possible civil penalties may be imposed by the proper authorities based on evidence provided by the livestock show of exhibitors in violation of the Federal Food, Drug and Cosmetic Act or the animal mistreatment, neglect, and abandonment laws that apply on the local, state and national levels. Other cooperating shows will be notified of the action taken by the show management, which may affect the eligibility of the individual, group, or sponsoring organization for participation at other shows.
ENTRY CERTIFICATION RULES

KERN COUNTY FAIR 2019 JUNIOR SHOW ENTRY CERTIFICATION RULES

By submitting your online entry:
The undersigned Exhibitor and his/her Parent or Legal Guardian, County Extension Agent (CEA) or 4H or FFA Leader hereby certify that each has read, understands and will abide by the current Kern County Fair Livestock Premium List and all rules and regulations of the Kern County Fair Livestock. We further certify that we have not administered and, to the best of our knowledge, any entry from this exhibitor has not received any substance not approved by the FDA and/or USDA. In instances where an animal has been administered a drug that is FDA approved for its species, the exhibitor must be aware that the time it takes for no drug residue to be found in the system is generally longer than the labeled withdrawal time for most drugs. Kern County Fair maintains a ZERO TOLERANCE POLICY for unethically fitted livestock. Adequate time must have passed so that the animal does not test positive for drugs upon arrival. Once the animals arrive on the fairgrounds, they must remain free and clear of all drug and chemical residues.

Veterinarians / Medication: Animals under the care of a licensed veterinarian and/or taking any type of performance enhancing medication to include, but not limited to steroids, diuretics, anti-inflammatories, tranquilizers and painkillers, are ineligible for competition. Exhibitors with questions regarding medications and/or eligibility should consult with the Veterinarian prior to competition.

Kern County arranges to have veterinarians; however, they do NOT donate their services or medications. Fees should be discussed before treatment. All medication administered during the livestock show must be administered by the Veterinarian and a written medication record must be filed. Animals receiving performance enhancing drugs (e.g., steroids, diuretics, anti-inflammatories, tranquilizers and painkillers, etc.) in this manner are ineligible for competition.

The Exhibitor agrees to submit any animal, breeding and/or market, entered by him/her to inspection by any veterinarian or testing agency appointed by the Management of Kern County Fair and agrees to have such animal submitted to such tests as may be requested at any time. Kern County Fair also reserves the right to have ultrasound, D.N.A., Blood, tissue and/or urine laboratory analysis made on any animal entered for competition. The conclusions reached by the veterinarian and/or testing agency and analyses shall be final and conclusive without recourse against the Kern County Fair or any officer, director, employee, independent contractor or agent thereof, including, without limitation, any veterinarian or testing agency appointed by the Management (collectively referred to as the Released Parties). The Exhibitor waives assertion of any action as a result of decisions rendered as a result of this rule and further releases the Released Parties from any and all claims or demands whatsoever in connection with the inspection or testing of any such animal or any ruling or action taken by reason of the conclusions of such veterinarian or testing agency.

As breeding animals are not entering the food chain, the USDA Wholesome Meat Act does not apply; however, breeding animals will be closely screened for any performance enhancing compounds. This includes, but is not limited to, steroids, diuretics, anti-inflammatories, tranquilizers and painkillers.

In the event any animal is declared by the veterinarian or testing agency to be unethically fitted, the Fair Management will disqualify the exhibitor from this year’s competition and one year following the incident. Reinstatement of anyone disqualified may be made only by the Fair Management. The Exhibitor will forfeit all titles, awards, prizes, auction proceeds, premiums, scholarships and market/floor money if the animal is disqualified.

In the event where an animal sample does not match after the DNA analysis test, the animal and exhibitor in question shall be disqualified. The exhibitor shall be blocked from the auction. All awards and premiums shall be forfeited. The exhibitor will be banned from entering the 2020 Kern County Fair. There shall be no appeal process. The Fair Management decision is final. Fair Management reserves the right to extend the disqualification to family members and leaders.

INDEPENDENT EXHIBITOR REQUIREMENTS

STATE RULE:
Independent junior exhibitors entering market animals must provide Fair Management with a picture of their animal, appropriate proof of ownership, permanent tag, tattoo and/or hog ear notch information 120 days prior to the fair for beef and 60 days for sheep, swine and goats.
In an effort to increase awareness of responsibilities associated with the production of consumer-oriented products, the Kern County Fair requires exhibitors of market animals to sign a Declaration of Medication Form, if animals have medications in their system which won’t be gone before fair arrival. All animals treated on the fairgrounds must be treated by a veterinarian and will need an updated Declaration of Medication Form. This form acknowledges the use of any substance in/on the animal for which the required withdrawal period has not completely elapsed prior to arrival at the Fair. This includes substances used per label or in an extra-label fashion. All extra-label drug usage MUST be done under the supervision of a licensed veterinarian and their contact information is required. Any animal requiring medically necessary treatment within 48 hours of competition may need to be withdrawn from competition if hydration status, mentation or gait will be affected by the necessary treatment. The intent of the program is not to prevent medically necessary treatment, but to insure the animal’s wellbeing and, fair competition. The decision of the Fair’s management in regards to eligibility for competition shall be final.

The Kern County Fair reserves the right to test any animal officially entered in any division at any time without notice, for foreign substance including but not limited to drugs, chemicals or feed additives. Compounds tested for may include but are “not” limited to: Antibiotics, Diuretics, Local Anesthetics, Sedatives/Tranquilizers, Non-Steroidal Anti-Inflammatory Drugs, Steroids/Growth Promotants.

Failure to fully cooperate with testing procedures, and/or representatives collecting samples shall indicate a voluntary withdrawal by the Exhibitor of the animal from the competition, and result in the immediate disqualification of this project and automatic loss of participation privileges in all future California State Fair competitive events.

NOTE TO PARENTS/LEGAL GUARDIAN: By submitting online entry, each parent/legal guardian acknowledges that:

a. He/she has read the Kern County Fair Junior Livestock Competition Handbook Rules (General, Livestock and Special) and Regulations;
b. The Junior Exhibitor has owned, fed and cared for the market animal(s) throughout the required ownership period. He/she has supervised the Junior Exhibitor and the Junior Livestock animal(s) have not had any drugs, chemicals, feed additives, or other substances used on them except pursuant to the label specifications, or unless under the direction and supervision of a licensed veterinarian for therapeutic purposes. All drugs, chemicals, feed additives or other substances for which the required withdrawal period has not elapsed prior to arrival at the Fair must be declared on a Declaration of Medication Form upon arrival on fair grounds;
c. He/she has supervised the Junior Exhibitor and the Junior Livestock animal(s) have not been tampered with in any way, including but not limited to, unethical fitting or any method altering the natural conformation of any part of the animal(s)body;

He/she has supervised the Junior Exhibitor and the Junior Livestock animal(s) have not had any drugs, chemicals, feed additives, or other substances used on them except pursuant to the label specifications, or unless under the direction and supervision of a licensed veterinarian for therapeutic purposes. All drugs, chemicals, feed additives or other substances for which the required withdrawal period has not elapsed prior to arrival at the Fair must be declared on a Declaration of Medication Form upon arrival on fair grounds;
which the required withdrawal period has not elapsed prior to arrival at the Fair must be declared on a Declaration of Medication Form at official weigh-in; and  
c. He/she has supervised the Junior Exhibitor and the Junior Livestock animal(s) have not been tampered with in any way, including but not limited to, unethical fitting or any method altering the natural conformation of any part of the animal(s) body;  
d. He/she understands the penalties for violating these General, Livestock and Special Rules and Regulations, include but are not limited to, monetary penalties, and the immediate disqualification of the Junior Exhibitor, and/or jeopardizing the chapter or club’s entry in the 2019 Kern County Fair and any subsequent fairs.

Residue Avoidance Policy: The Kern County Fair reserves the right to test any animal officially entered in any division at any time without notice, for any foreign substance including but not limited to drugs, chemicals or feed additives as well as DNA testing. At a minimum, some animals from the following groups will be tested: animals required to participate in the Kern County Fair Junior Livestock Auction (including any alternates) and; any animals suspect in terms of unusual physical appearance, demeanor or activity. As a condition precedent to accepting an entry, an entry form signed by the exhibitor, Agricultural Science Instructor, 4-H Leader, Grange Advisor, Parent or Legal Guardian grants the Kern County Fair permission to test any entry. Testing may be performed on any body tissue or fluid on both the live animal and the carcass. Test samples collected from any animal must have zero tolerance for any identifiable or unidentifiable foreign substances including drugs (legal and illegal), chemicals of any kind or feed additives, unless established as permissible by the USDA or FDA.

If an animal that has declared a medication, receives an award and is eligible for the Kern County Fair Junior Auction, but is still within the withdrawal period of that medication then, the exhibitor shall be required to pay any boarding fees associated with the housing of livestock past the scheduled process date. Boarding fees associated with waiting for test results on animals with a known residue, are all the responsibility of the exhibitor and shall be collected prior to auction, based on a per day cost per animal. Animals testing positive to an unapproved foreign substance including but not limited to drugs, chemicals or feed additives, will be disqualified and declared ineligible to receive awards, premium money or sale proceeds. In addition to the disqualification and forfeiture of awards, premiums and/or auction proceeds, the Kern County Fair may release to the media the name of the exhibitor, leader, advisor and the name of the exhibitor’s animal that was disqualified and was in violation of the Drug Residue Program. The live market animal or carcass that tests positive will immediately become the property of the Kern County Fair and the exhibitor may be compensated for the market value, less expenses, if the animal passes inspection. Carcass of disqualified animal or poultry will be disposed of per written instructions from U.S.D.A. or FDA.

If entry is disqualified, the entry and/or the exhibitor will be declared ineligible and will not receive awards, premiums and/or any sale proceeds, further the exhibitor will be responsible for payment of any fees, fines due or costs incurred by the Kern County Fair as result of the disqualification; The owner/exhibitor and members of his/her immediate family may not be eligible to compete in subsequent Kern County Fairs. The extent and degree of future eligibility shall be determined by Fair management based upon the severity of the offense and the circumstances giving rise to the violation.

If foreign substance residues including drugs, chemicals or feed additives are found in tissue of carcass of animals sold through the Kern County Fair Junior Livestock Auction, the Kern County Fair will in no way be liable or responsible for condition of carcass or sale price of animals. If, for any reason, any part of a carcass must be removed by U.S.D.A. inspectors, sale price will be discounted accordingly.
PROTESTS

1. Protest will be considered only if there has been a violation of State or Local Rules. Decisions of judges, veterinarians, weighmasters, breed callers, tail dock officials and timers cannot be protested and are final.

2. All protests must be accompanied by a deposit of $500.00 (cash, money order or certified check made payable to the fair). Note: The deposit will be returned if the protest is upheld. If the protest is upheld, the violator may be held liable for any portion of the direct cost incurred by the fair in the course of the protest resolution. Failure to reimburse the fair shall be cause for disallowing future entries in any of the network of California fairs.

3. All protests must be made in writing on the Kern County Fair protest Form and submitted to the Livestock Supervisor. All protests must be signed and accompanied by a deposit of $500.00 (explained above) payable to the Kern County Fair. The deposit shall be forfeited if the protest is not sustained. No complaint or appeal concerning a judge or judge’s decision will be considered. Protest shall be adjudicated by the Fair management. Fair management will consult with a member of the board of directors who shall be designated by the Chairman of the Board of Directors. The decision of fair management shall be final and unappealable.

7. Any animal that is involved in a protest is eligible to compete until the protest is resolved. Any classes which involved a protested animal will not be officially placed until the protest is resolved. In any Championship classes involving that animal, the judge shall also select a 1st and 2nd Reserve Champion, in cause of disqualification.
