Restriction of Public Access to Latah County Facilities

As the health and safety of Latah County's residents, patrons and employees is our greatest priority, the Latah County Board of Commissioners has issued the attached Order Restricting Public Access to Latah County Facilities.

Effective Thursday, March 19, 2020, access to all Latah County facilities will be restricted to authorized county employees and staff only.

Any person with county business should attempt to conduct such business by off-site means, including U.S. Mail, telephone or e-mail. Telephone numbers and e-mail addresses for all county offices are available at the Latah County website: www.latah.id.us. Additionally, Latah County has a dropbox for many of its offices in the parking lot of the Latah County Courthouse and near the entry door at the Latah County Event Center.

For those with business that cannot be conducted off-site, and which is of such a nature that it cannot be delayed or deferred, please contact the office or department you have business with ahead of time to schedule an appointment. Any person wishing to enter a Latah County facility will be screened before entry per guidance by the CDC for any symptoms or threat of Covid-19 exposure.

These measures are preventative at this time based on best practices and we appreciate the work of our citizens in helping to lessen any spread.
