WESTERN RIDING Class 18

Tack- Western type saddles. Slip or gag bits, and donut and flat polo mouthpieces are not acceptable.

Horses 5 years old and younger may be shown in a snafflebit, hackamore, curb bit, half-breed, or spade bit. Leather or woven split reins or mecate reins are acceptable with a snaffle bit. Junior horses shown with a hackamore or snaffle bit may be ridden with two hands on the reins.

Horses six-years-old and older may be shown in a curb bit, half-breed, or spade bit. Only one hand may be used on the reins, and the hand must not be changed.

Western Riding is an event where the horse is judged on quality of gaits, lead changes at the lope, response to the rider, manners, and disposition. The horse should perform with reasonable speed, and be sensible, well-mannered, free, and easy moving.

Credit shall be given for and emphasis placed on smoothness, even cadence of gaits (i.e., starting and finishing pattern with the same cadence), and the horse's ability to change leads precisely, easily, and simultaneously both hind and front at the canter point between markers. The horse should have a relaxed head carriage showing response to the rider's hands, with a moderate flexion at the poll. Horses may be ridden with light contact or on a reasonably loose rein. The horse should cross the log both at the jog and the lope without breaking gait or radically changing stride.

Horses five-years-old and younger may be shown in a snaffle bit, hackamore, curb bit, half-breed, or spade bit.

Horses six-years-old and older may only be shown in a curb bit, half-breed, or spade bit.

Ranch riding serves to measure the ability of the horse to be functional and a pleasure to ride at a working speed while being used as a means of conveyance from one western stock horse task to another. The horse's performance should simulate a horse riding outside the confines of an arena and that of a working ranch horse. This horse should be well-broke, relaxed, quiet, soft, and cadenced at all gaits. The horse should be responsive to the rider, yield to contact, and make all required transitions smoothly, timely and correctly. The horse should perform with reasonable speed, and be obedient, well-mannered, free, and easy moving.
