PHILOSOPHY AND GOALS OF THE 4-H LIVESTOCK PROGRAM

“The purpose of the 4-H Livestock Program is to provide young people an opportunity to participate in a series of activities designed to improve citizenship, sportsmanship, character, competitive spirit, discipline, responsibility and livestock knowledge, while creating an atmosphere of personal development and awareness of life around us.”

The goals and implications of the above statement is life changing. Leadership does not anticipate that youth would progress at the same rate in all these objectives.

However, given the proper motivation and guidance by the leaders, parents and 4-H agent, there will be progressive improvements in the youth’s development.

Simply having a youth recognize the opportunity for growth and personal potential is a significant accomplishment.

Most 4-H youth participating in a livestock project will already have an interest in the animal. It is leadership’s responsibility to utilize this interest to accomplish the livestock project’s objectives through training and guidance.

The purpose of all livestock projects, both market and non-market, is to further the education and development of the child.

There are more than 360 projects in 4-H, and all have the common goals of making better citizens of youth, increasing their knowledge in a subject area, enabling them to develop integrity, sportsmanship and cooperation along with leadership abilities.

It is the goal of the 4-H Youth Development program to inspire youth to explore all their areas of interest.

This record book may also be used by FFA Youth in exhibiting their livestock project.

It is the FFA advisor’s responsibility to assist the youth to accomplish the livestock project’s objectives.

It also should be noted that the Livestock Show and Sale is not the major objective of this program but only the project’s conclusion. It must be understood that our first and most important objective in the 4-H program is the education and development of the child.

4-H Rabbit/Cavy Record Book

Introduction

This Project Record Book has been created specifically for 4-H members enrolled in a Rabbit/Cavy 4-H project. Keeping a record book is an important part of the project. It will help you set goals for the project year, record your accomplishments, and provide a place to keep important records on your Rabbit/Cavy.

What is a 4-H project?

A 4-H project is a subject or topic that you learn about through the 4-H youth Development program. In this case, your project is a market animal. You will learn about your project by attending club meetings and educational workshops, and working with adult leaders and other 4-H members. You can also learn from field trips and by participating in shows and competitions.

Why complete a record book?

A record book is not meant to be a chore. Instead, it is a way for you to learn about your project, as well as other valuable lessons such as setting goals, collecting and evaluating information, tracking expenses and profits, organizing records, and other life skills.

Completing your 4-H Rabbit/Cavy Project Record Book

At the beginning of the 4-H year you should select one/several of your animals to be your 4-H project animal(s) for the year. Then begin recording all of the relevant information on your animal in your record book on a monthly basis. It is important to keep your record book up to date, so that completing it does not become a chore at the end of the year.

Take a glance through the record book so that you can see how it is organized. As you can see, there are pages that pertain only to health, and pages that pertain to show records and/or financial summaries. **You only need to complete the pages relevant to your project animal.** However, you should complete **all** of the relevant project information.

NOTE: This book may be used by FFA Exhibitors

Youth Animal Project Agreement

Form signed at the beginning of the project.

The Exhibitor is responsible for caring for the animal, which will include feeding, deworming, providing fresh clean water, providing suitable housing, washing and showing. The Exhibitor will use this project as an educational tool to learn skills needed in the livestock industry. The project will also help the Exhibitor to accept success and failure as a learning experience.

The Exhibitor will keep accurate records on the animal. I accept and understand these responsibilities
