You may add additional pages and/or information to any part of these records except as noted.

Describe your garden location, size and what type of soil is located there. (raised bed, container culture, in-ground, row cover, etc.)

Describe tillage practices, soil preparation prior to planting, etc. (Describe what was done and note if you did it or someone else did it)

Describe your irrigation methods used and the frequency of irrigation needed.

Describe your weed control. If you used mulch describe what you used. If you used herbicides, list them.

Describe any insects observed and what you did to control them if control measures were initiated. List any insecticides used and note which vegetable and which insect it was used for.

Describe any plant diseases observed and what you did to control them if control measures were initiated. List any fungicides used and note which vegetable and which disease it was used for.

Describe other information you want the judges to know about, both successes and failures.

Attach up to ten photos of the garden plot. Include at least one photo at planting and one photo at harvest. Photos showing you working in the garden are preferred. Add extra pages if needed.
