ETHICAL PRACTICE STATEMENT TO BE TURNED IN AT SCALE

Livestock Department Objective and Purpose

YQCA:

The California Department of Food & Agriculture is requiring all youth exhibitors showing at Fairs throughout California in 2020, to have completed the applicable YQCA (Youth Quality Assurance) program training. This mandatory program is available online at the following link (insert link if you have it). In order to show at the 2020 SBC Fair, each exhibitor is required to have completed an approved YQCA training course, and must be able to provide proof of completion upon request by any member of the SBC Fair staff, or any representative from California Department of Food & Agriculture.

The San Bernardino County Fair is an exhibition and educational entity. The Exhibition provides education to the public about livestock and farm animals, as well as the overall agricultural industry. Competition in the show ring provides a forum for comparison of livestock animals, based on selected or desired characteristics and genetics. The results contribute to breed and overall species improvement. These selected characteristics are reflected in the market, and usually follow consumer demand for a certain type of product (i.e. leaner meat). The Junior Livestock Auction provides the culmination of hard work on a livestock project.

All "State Rules of California Fairs" as prescribed by California Division of Fairs & Expositions apply to this fair. "State Rule Booklets" will be available at the entry office or the livestock office.

FFA is a national organization of students enrolled in high school vocational agriculture classes. The local unit is the chapter in each high school offering vocational agriculture under the supervision of the agriculture teacher who is always the local chapter advisor. The state unit includes all chapters in the state, under the supervision of the State Department of Education as represented by the Department of Agricultural Education headquartered at the State Education Building, Sacramento, California.

Participation in fairs and livestock shows is recognized as having educational value as well as stimulation for better results and finer projects under supervision of the qualified chapter advisor and with the cooperation of the fair management.

4-H Youth programs are non-formal voluntary educational programs under the supervision of the Cooperative Extension Service of the University of California and the United States Department of Agriculture. They are a part of extension teaching. The projects exhibited at fairs by members of these groups are the results of their efforts under the supervision of volunteer adults. **Note:** As of July 1, 1998, primary members must be 5 years old by January 1st of the program year or in Kindergarten. Junior members must be 9 years old by January 1st of the program year.

The Grange Youth Program is a sanctioned body of the California State Grange made of young people from the ages of 6 through 19 years. At the San Bernardino County Fair, all Grange livestock specie classes must have five (5) entries per class. If less than five (5), all market animals and showmanship will be shown in the 4-H classes.

Livestock Market Ethics Rule

TO BE TURNED IN AT SCALE

If you choose to enter into the 2020 San Bernardino County Fair Livestock Auction, you are choosing to sell your animal to the highest bidder. You are also accepting the fact your animal will be terminated at the place chosen by the winning bidder.

The Livestock Buyers are very important to the Livestock program, and is a wonderful source for helping our children attend college and further their education. They are important and should always be treated with respect.

Therefore, at no time should an exhibitor approach a prospective buyer and ask them to purchase your animal and then return the animal to you. This type of action is unethical, and offensive to our prospective buyers, and harms the program as a whole.

Any exhibitor found practicing unethical behavior will be penalized.

Let's all work together to continue to strengthen and improve the long-standing livestock traditions.

Code of Practices and Certificate of Animal Medication

I believe that my participation in the San Bernardino County Fair Junior Livestock Program demonstrates my own ability, knowledge and skill as a feeder and fitter of livestock. I will do my own work and only accept advice and support from others.

I have not used abusive or questionable techniques in the feeding, fitting, and showing of my animals. I have not resorted to fraudulent, illegal or deceptive practices when fitting them for show. I will not allow my parents, my supervisor or any other adult to employ such practices to my animal.

I have read and understand all the General and Livestock Rules of the San Bernardino County Fair. I have asked my parents and the supervisor of my project animal not to break the rules or make exception on my behalf. I wish for my livestock project to be an example of how to accept what life has to offer - good and bad - and how to live with the outcome.

Certificate of Animal Medication:

Under penalty of perjury, we the undersigned certify that:

1. No unauthorized chemicals have been used which would cause the carcass to fail USDA and Food & Drug Administration Standards.
2. The withdrawal time required of any medication (including medicated Feed), fungicide or pesticide administered has been adhered to.

As the owner of this market animal, I acknowledge I will be responsible for my animal if it is rejected at the processing center due to the presence of drug residues. If drug residue is detected I may be liable for Attorney' Fees and Civil Penalties (Food and Agriculture Code Section 14363).

“Jaimie Pettey” Memorial Scholarship

Jaimie’s Memorial Scholarship began in 1992, at the time of her death, with donations from numerous people and from the sale of her last two market animals – a pig that sold at the National Orange Show and a steer that sold at San Bernardino County Fair. Since that time, with continued support and generous donations from so many people, the Scholarship Fund has continued to grow. This growth has allowed us to increase the amount, as well as the number of scholarships given each year. The scholarships are received by graduating seniors within the San Bernardino County 4-H program, the FFA of San Bernardino County and from the California State FFA. The applicants submit their applications for review. The scholarships are awarded based on grade point average, participation in their respective programs, future plans and the applicants need. The scholarship money received is always appreciated, and in many cases, has made a real difference in how the student is able to pursue their educational goals. It always amazes us to see how often the recipients of this Memorial Scholarship identify with Jaimie and feel that they really become to know her.

Jaimie showed at the San Bernardino County Fair each year and it was a particular favorite of hers. It has now become a tradition that each year an animal is donated; an exhibitor then shows and sells the animal; and the money is donated to the Scholarship Fund. We are so grateful that the fair has continued to make this an important part of the Junior Livestock Auction. It is a truly memorable experience to see the many kids, some very young and some past scholarship recipients as they all crowd onto the stage to help sell the animal. Jaimie lives on in all of these young people – those who help to make the scholarship possible and those who continue their education with the help of the scholarship. She touched many people in her short life and she continues to touch many more still.
