LIVESTOCK GRADING & HUSBANDRY COMPETITIVE HANDBOOK

INCLUDES SMALL AND LARGE LIVESTOCK (BREEDING, GRADING AND HUSBANDRY)
NOT OPEN TO THE PUBLIC

MAY 26-31 2021

(closed to the public)

Dear Exhibitor:

Welcome! We are so excited to announce that we are working to host an in-person 2021 Sacramento County Livestock Grading & Husbandry event on May 26-31, 2021! What a tough time we have all experienced in the last year. We are still reeling from the devastation of cancelling the 2020 Fair. However, we appreciate all the support we received last year with our virtual JLA auction. It was not ideal, but it was ideal for the pandemic and our exhibitors made money.

We are working on hosting an in-person livestock event for 2021! Will it be the same as pre-COVID years of the Fair, NO! Due to the uncertainty and the Sacramento County Health Department guidelines, expect CHANGE and lots of it. Nothing is guaranteed and we could have everything planned and still have to cancel at the last minute. Please remember the Fair is not in our control. We are working diligently to provide an in-person Grading & Husbandry experience for our exhibitors. Due to the fact that agriculture is considered an essential function, we feel confident at this time we will be able to host the event. The event will only be open to exhibitors, family members and buyers. All admission MUST be purchased online and COVID forms completed. All COVID protocols will be enforced.

What will the Livestock Grading & Husbandry Fair of 2021 look like? Everything will take place at horse racetrack facility at Cal Expo and there will be lots and lots of new rules. **We are using a facility that is not designed for livestock use.** We are going to make it work so the "kids" have the opportunity to sell their projects and generate funds for their future.

We will be using the horse stalls for the livestock. The power is limited; therefore, generators will be allowed. Generators will be accepted only this year. We are not able to utilize any shade cloth. The Grading animals will be weighed off the truck and all load-in's will be scheduled by times. A representative from the SCF will unload animals and weigh the animal. If the animal makes weight and passes the health inspection, they will then be given to the exhibitors to take to the stalls. Exhibitors will be permitted to have a stall card (8x12) and a club may have an area identifying sign. Unfortunately, there will be NO stall decorations this year. If you are bringing a tent for shade it MUST be labeled as fire retardant.

NO golf carts allowed. NO ATV's, motorcycles or side by sides will be permitted on the grounds. Fair Management reserves the right to disqualify and/or remove any exhibit that is not in the best interest of the Fair, including any livestock exhibit which endangers the well-being of the public or other animals while at the Fair.

California Department of Food and Agriculture will be continuing the mandatory Youth for the Quality Care of Animals (YQCA) program. Livestock exhibitors, excluding primary, horse, and pygmy, must attend a course and provide proof of attendance in order to be eligible to show at any California Fair. This online program is \$12.00, with 100% of the funds going to YQCA; SCF does not receive any of these fees. Learn more about YQCA and how to enroll at <http://yqca.org>.

We are going to be utilizing a live and virtual JLA Sale this year, therefore we will have two sales; one on May 30th (hogs and small animals) and one on May 31st (sheep, steers and goats). The add-ons will remain open on-line until June 4th. All thank you letters are due on June 15th.

Please note that any exhibitor staying in the Cal Expo RV Park must always have an adult present in the RV Park. If exhibitors are found to be unchaperoned at any time while in the park, they will be immediately disqualified from the Fair, not allowed to exhibit any project and will not qualify for the Junior Livestock Grading Auction. If students are found to be unchaperoned in the RV Park following the JLA Auction, exhibitors will forfeit their JLA auction proceeds. All SCF exhibitors shall abide by their organizations code of ethics and code of conduct as specified by 4-H, FFA and the Sacramento County Livestock Grading & Husbandry at all times. Independent exhibitors are required to abide by the same rules during the Fair. These rules may be found on the 4-H and FFA websites.

It is every exhibitor's responsibility to know the rules and abide by them. They will be enforced! We will again enforce and require each leader, advisor, exhibitor and parent to read and sign the Code of Ethics. If you take the time to read the handbook, your questions will be answered. If you need help in any way, please call the office.

We need everyone's assistance in generating award sponsorships. The Sacramento County Fair has been idle for over a year because of COVID therefore we have had no source of income since 2019! It is our goal to continue to host the same quality event as in years past. Due to Covid, we MUST generate all the revenue we need to host this event. Without the traditional Fair, we must have help or we cannot offer the awards we have in past years. Buckle sponsors receive recognition on Facebook, with a banner in the show ring(s) and by arena announcer. If you are interested, please call the fair office or use the form on the next page. Buckles are only awarded if there are 5 or more entries per class. Information will be available on our Facebook page and on www.sacfair.com. As we get closer to the Fair, we will increase our communications through Facebook, our website www.sacfair.com and Zoom calls.

See You in May,

PJF

SACRAMENTO COUNTY FAIR CODE OF ETHICS

The Code of Ethics was developed IN COOPERATION WITH THE CALIFORNIA STATE 4-H, CALIFORNIA FFA ASSOCIATION, CALIFORNIA STATE GRANGE, WESTERN FAIRS ASSOCIATION, AS WELL AS OTHER AGRICULTURAL ORGANIZATIONS. We believe this code, when instituted, will help ensure that all exhibitors are on a level playing field, that animals are treated safely & humanely, that food safety is insured and that a positive environment is maintained.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conducts or questionable acts. Exhibitors who violate the Code of Ethics will forfeit premiums, awards & auction proceeds and shall be prohibited from future exhibition in accordance with these rules. Expectation of rules & behavior to apply to campground as well as on social media posts.

The following practices or procedures are unacceptable & are defined as being deceptive, fraudulent, unethical & inhumane in the care, fitting, preparation & showing of all classes of livestock. The use of any illegal drug is prohibited. Legal or illegal substances used to phenotypically alter the appearance of an animal entered in livestock events are prohibited. Use of illegal drugs is considered a premeditated act. Furthermore, any information pertaining to the practice of illegal alteration of an animal will be turned over to the proper authorities for criminal prosecution.

1. All exhibitors must have viable proof of ownership available to Fair & Livestock Officials at their request. Grading animals must be owned & under exhibitor's daily care according to CDFA State Rules for California Fairs. The official ownership date is the date shown on the bill of sale, unless the animal was bred by the exhibitor, in which case calving or birth records must be shown. Registered breeding livestock must show the exhibitor as the owner of the animal on the breed association papers or certificate.
2. No exhibitor will be allowed to show an animal which has been previously sold at an auction or sale as a Grading animal through another fair or livestock show, whether or not there is an actual change of ownership. Any method used to misrepresent the age of an animal for a class in which it is shown is deceptive & considered illegal. Showing an animal for another individual by claiming ownership in order to show in a specific livestock class or event is prohibited. False ownership is illegal.
3. Junior exhibitors are expected to care for & groom their animals while at fairs or livestock shows. No professional fitters.
4. There will be no dye, or paint used on any specie of animal. If coloring is found, the animal will not be allowed to show. All tails will be natural in nature. No twining allowed.
5. Animals shall be presented to show events where they will enter the food chain free of volatile drug residues. The act of entering an animal in a livestock show is the giving of, consent by the owner, exhibitor, leader, advisor and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood or other substances from the animal to be used in testing at the owners expense. Animals not entered in any event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state & provincial statutes, regulations & rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state & provincial statutes, regulations & rules affect the animal's performance or appearance at the event. If the lab report on the analysis of sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample tested by the lab, to which it is sent, is the one taken from the animal in question, its integrity is preserved & all procedures of said collection & preservation, transfer to the lab & analysis of the sample are correct & accurate & the report received from the lab pertains to the sample taken from the animal in question & correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, leader, advisor or absolutely responsible person to prove otherwise.
6. Any surgical procedure, injections or insertion of foreign material, substance or drug or the external application of any substance (irritant, counterirritant or similar substance) which could affect the animal's performance or alter its natural contour, confirmation or appearance of an animal's body is illegal. This includes vegetable oil, silicone, air or any other substance used to alter the shape of the animal.

7. By entering, exhibitor acknowledges responsibility in the event their animal is found to contain volatile drug residues or is deemed unfit for human consumption at processing. Adulterated carcasses or those deemed unfit for human consumption by USDA Food Safety Inspection Service (FSIS) personnel at processing are the sole responsibility of the seller. If animals fail to pass ante-mortem inspection, or their carcasses are determined to be diseased or adulterated at processing, exhibitors shall be liable for financial restitution, attorney's fees and Civil penalties. Exhibitors may also be subject to disciplinary measures administered by the Sacramento County Fair, including but not limited to, the cancellation of sale transactions and/or reimbursement to buyer.
8. The use of inhumane showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivances or other similar practices are not acceptable & are prohibited. Other practices, unless under the written authority of a licensed veterinarian, that are not acceptable or prohibited include, but are not limited to, liquid diets for lambs, excessive shrinking, excessive exercising, tying animals with the feet off the ground & electric stimulation.
9. Criticism or interference with judges, fair or livestock show management, other exhibitors, breed classifiers or show officials before, during or after the competitive event is prohibited. All officials shall be treated with courtesy, cooperation & respect & no person shall direct abusive or threatening conduct toward them.
10. No exhibitor, leader, advisor or responsible person shall conspire to intentionally violate the Code or knowingly contribute or cooperate with another by affirmative action or inaction to violate this Code.
11. The application of this Code provides for absolute responsibility for an animal's condition by exhibitor, leader or advisor whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this Code of Ethics.
12. The act of entering of an animal in fair livestock show is the giving of verification by the exhibitor or absolutely responsible person that he/she has read the Code of Ethics & understands the consequences of & penalties provided for actions prohibited by the Code. It is further a consent that any action which contravenes these rules & is also in violation of federal, state or provincial statutes, regulations or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.
13. Any exhibitor staying in the Cal Expo RV Park must have an adult in the RV Park at all times. If exhibitors are found to be unchaperoned at any time while in the park they will be immediately disqualified from the Fair, not allowed to exhibit any project and will not qualify for the Junior Livestock Grading Auction. If students are found to be unchaperoned in the RV Park following the JLA Auction, exhibitors will forfeit their JLA auction proceeds.

BY SIGNING, WHETHER IMPLIED ONLINE OR PHYSICALLY ON A PAPER ENTRY FORM:

The exhibitor & his/her Parent or Legal Guardian or leader/advisor hereby certifies that each has read, understand & will abide by SCF rules and regulations. We further certify that we have not administered &, to the best of our knowledge, any entry from this exhibitor has not received any substance not approved by the FDA and/or USDA. In instances where an animal has been administered a drug that is FDA approved for its species, the exhibitor must be aware that the time it takes for no drug residue to be found in the system is generally longer than the labeled withdrawal time for most drugs.

In the event any animal is declared by a veterinarian, processor or testing agency to be unethically fitted, the Executive Director and/or CEO will disqualify the exhibitor from this year's competition & one year following the incident. Reinstatement of anyone disqualified may be made only by the Executive Director & CEO. The exhibitor will forfeit all titles, awards, prizes, auction proceeds, premiums, scholarships & Grading/floor money if the animal is disqualified.

INFORMATION FOR OFFICIALLY RECOGNIZED PREMISE EARTAGS FOR SWINE

With attempts to continually monitor animal traceability, many states are now requiring swine to be tagged with official, federally recognized ear tags for interstate transport. In order to be recognized as an official tag, the information below must be identified on each tag.

Official Ear tag Requirements for Individual Animal Identification (AIN)

- Tags must be tamper proof (designed for one time use) and imprinted with a nationally unique, official animal identification number
- Tags must possess the US shield emblem

Obtaining Official Ear tags

Many farm supply companies offer the purchase of officially recognized ear tags through online stores. Tags will require a Premises ID number and address of premises in order to make a purchase.

Examples of Official Animal Identification Number (AIN) Tags for Swine – 840 Tags

840 Tags: 840 tags comply with the requirements of the Animal Disease Traceability (ADT) framework for both visual and electronic identification. These tags are recognized in a standardized information system between federal, state and industry officials. 840 tags are designed to help provide information on animal traceability.

Both “840 Visual Tags” and “840 RFID Tags” are acceptable for NSR and NJSA swine shows. Since these tags are specific to a Premises ID, they must be obtained by the owner of the premises. They may be purchased through tag supply stores (several online stores available).

1. **Allflex 840 Visual Tags:** The two examples of Allflex 840 Visual Tags below may be ordered through many online farm supply stores. Both of the tags below can print with the purchasers Premises ID number on the tag. Be sure to request to have your Premises ID printed on the tag when making your purchase of these tags.

a. **Allflex 840 Integra Tag (a great option for swine being exhibited at NSR/NJSA events)**

Other Types of Officially Recognized Ear Tags

National Uniform Ear tagging System (NUES) Ear tags: NUES tags, often referred to as “silver” or “Brite” tags and historically been used for disease testing and interstate movement. State and Tribes administer the distribution of NUES ear tags. They may elect to restrict their use to Accredited Veterinarians or make them available direct to producers as well as through the veterinarians. Producers must contact their State or Tribe animal health official to find out if NUES ear tags are available in their area.

SCRAPIE TAG INFORMATION AND INSTRUCTION

Official Scrapie tag information is required for all sheep AND goats entered at the Sacramento County Livestock Grading & Husbandry under the National Scrapie Eradication Program. This is a mandatory program and requires participation by all sheep and goat producers from all 50 states. It includes individual identification of animals (sheep and goats) with an ear tag or tattoo prior to changing ownership (so that animals can be traced) and to allow testing samples from sheep at harvesting facilities.

What is a Scrapie Tag

Sheep and Goat producers will register and request from USDA approved individual official tags. These are referred to as scrapie tags and are required for:

- **All Sheep and Goats must be identified when changing ownership and prior to transport before a show, fair, petting zoo, or exhibition.**
- **Exception to the use of Scrapie Tags:**
- **Registered goats that have a legible registry tattoo accompanied by a copy of the registration certificate do not require a scrapie tag if their tattoo is registered as a unique entity with the breed association and USDA-APHIS' Veterinary Services office. Exhibitor must bring own reader.**

The scrapie tag identifies **two** specific tracking numbers:

- **Premise number;** also referred to flock, herd or breeder identification. This number will be assigned by the Federal Government and follows a specific format.
 - The first two character of this number indicate the two digit alpha state code. For example, if the animal was born in California the first two digits would be "CA". If the animal was from Oklahoma, the first two characters would be "OK".
 - The 4 to 5 digits that follow the alpha state designation is the premise number which has been assigned by the Federal Government for that specific livestock producer AND location.
- **Individual Animal Identification Number:** This is a numbering sequence to identify one animal from the specific premise. It may be one digit or several. This is a numbering sequence that is chosen by the breeder.
- **Both sets of these numbers must be submitted with your entry at the Sacramento County Livestock Grading & Husbandry.** This information is to be recorded from the actual tag that is located in the ear of your animal.
- **Some breeders may use a tattoo method or a microchip.** As long as the requirements have been met these are acceptable ways per the Federal Government.
- **It is ILLEGAL to remove or tamper with the scrapie tag once it has been issued.**

It is highly recommended that on your bill of sale for your purchased animal, the breeder indicate the Scrapie Tag information for inclusion on your entry form and to help resolve any issues that could arise. Be sure to bring your original Bill of Sale to the Sacramento County Livestock Grading & Husbandry for reference as needed.

How to Complete the Sacramento County Livestock Grading & Husbandry Entry

Enter the Premise number followed by the individual animal number

Example number 1; based on the above sample tag: XX2373/1234 would be your entry

Example 2; where the XX on the above tag was identified as California: CA2373/1234 would be your entry

The above entry indicates that animal was born in California at location 12345 (which is on file with the Federal Government) and 000123 is the individual animal number for this breeder.

Missing, Incorrect or Altered Scrapie Numbers

Entries with missing or incomplete scrapie numbers will not be registered as an exhibit until the scrapie number is corrected. Entry fees will not be refunded for entries that are not corrected by May 1 nor will the animal be allowed to compete in the Sacramento County Livestock Grading & Husbandry.

All Sheep and Goat scrapie number for Grading sheep and goat entries will be verified at the scales during weigh in or for all non Grading animals, during the day on Wednesday. Exhibitors with scrapie tag issues will be required to produce the original bill of sale which indicates the Scrapie Tag Information prior to participation in the Sacramento County Livestock Grading & Husbandry. Failure to do so may result in the disqualification and removal of the animal and forfeiture of the entry fee. **Scrapie Tags that are missing from the animal or appear to be altered are subject to disqualification from the Sacramento County Livestock Grading & Husbandry. It will be at the discretion of the Sacramento County Livestock Superintendent and the CEO as to the action to be taken. All entry fees and/or premiums will be forfeited.**

2. The Sacramento County AG Foundation (SCAF) will be supplying the card packets. Any proceeds from the card packet sales will go back to the SCAF. The SCAF benefits the educational and youth livestock programs hosted at the Sacramento County Livestock Grading & Husbandry.
3. Thank you cards must be turned into the Fair Office, or other location, deemed appropriate by the Fair, by June 15, 2021. Junior Livestock Grading Auction checks will not be sent out pending receipt of all thank you cards. Add-on and buyer names will be emailed on Monday, June 7th to the livestock advisors/leaders.
4. In lieu of purchasing gifts for a buyer, exhibitors may make a comparable donation in the buyer's name to the SCAF (i.e., if you would usually spend \$20 on a buyer's gift, that money may instead be made out in the form of a donation to SCAF and the buyer will be notified a donation was made in his or her name. No donation is considered too small or inappropriate).

5. **Notification that a donation was made will be indicated in the thank you card to the buyer, but not the actual price amount.** The Fair and the SCAF are in no way discouraging buyer appreciation, but instead trying to perpetuate our Fair by offering a solution to those buyers who get inundated by gifts. Also, this gives the sellers who do not have the means or forethought to purchase a gift the opportunity to give special thanks to their buyer. This solution has the most impact on both the buyer and the Fair! The procedure is time tested at many fairs with overwhelming support of both sellers and the buyers. **Thank you for being part of the Sacramento County Livestock Grading & Husbandry Livestock Program. We appreciate your support and hope you understand why this rule is so important to both buyers and sellers.**
6. All Grading Classes will be judged using the Danish & American Judging System of Judging. All Breeding and Husbandry classes will be judged using the American System of Judging.
7. The judges may disqualify or transfer to the correct division (at his/her discretion) any exhibit that is not a true representative of the division or class in which it is entered.
8. If there is only one animal in a class, it will be up to the judge's discretion to award first place to that animal in Registered Breeding Classes. If less than three entries are entered in a class, Fair Management reserves the right to combine classes to insure proper competition.
9. Feeder animals that make Grading weight cannot show in a Grading class, they must remain in a feeder class and will not be eligible for sale.
10. For classes that combine 4-H, FFA, Grange and Independent Junior animals, the judge will designate only one overall highest placing animal, i.e. Champion or Reserve Champion, Best of Breed or Best of Opposite Sex.
11. Checks for monetary awards won will be made out to the address submitted with the exhibitor's entry. Be sure, that your name and address are correct when submitting your online entry. All FFA & 4-H monetary awards will be made available for pickup by the FFA advisor or 4-H community club leader.
12. Checks become void after 90 days from the date of issue. Requests for checks to be reissued will be subject to a \$40 handling fee. Requests for a check to be reissued after 18 months will be denied.
13. All awards will be awarded at time of judging.
14. The judge's decision on awards cannot be protested. Protests will be considered only if there has been a violation of State or Local Rules. All protests must be presented to Management of the Fair in writing within 24 hours of the alleged violation and must be accompanied by a \$100.00 deposit (cash, money order, or certified check), or \$200.00 if the protest relates to a violations of State Rules X-XI, which will be returned if the protest is determined valid. Protests and appropriate action are decided by the Fair Management/Fair Board of Directors. If protests cannot be resolved with the Board of Directors, the Division of Fairs and Expositions may intervene.

Grading Animals Exceeding the Maximum Weight

Grading animals exceeding the maximum weight will be placed in a special weight category designated as “super heavy-weight.” Animals placed in this category may sell at auction if properly shown and appropriately placed. However, the seller will only be paid for the maximum weight listed in the Exhibitor’s Guide as follows:

Pay Weight

Beef	1400 lbs.
Sheep	140 lbs.
Swine	265 lbs.
Goat	105 lbs.

The Sacramento County Livestock Grading & Husbandry places minimum and maximum weights on Grading animals to be consistent with packer demands and consumer trends. We adjust these weights from year to year according to what the packer needs. A maximum weight was placed by the packer on hogs exceeding 280 pounds.

Hogs weighing over 280 pounds are not eligible to show in a Grading class or sell in the auction. Goats weighing over 115 pounds are not eligible to show in a Grading class or sell in the auction. They can be shown in the Husbandry class. In the future, packer demands may dictate that beef and lambs follow the same “maximum” weight criteria. If you would like more information, contact the County Fair office.
