

4-H Swine Class 01	Class Placing	VSS ID #	First Name	Last Name	Club/Chapter	Ear Tag	Reason
	1	46	Chloe	Silvestre	Spring 4-H	590	This gilt plants and pushes with plenty of flexibility on a stout foundation. I like her mass and shape up high and she strikes me as the complete one of the class coupling the right kind of build with the muscle and shape you'd expect of a good market hog.
	2	30	Alejandra	Acero	King City Blue Ribbon 4-H	350	I like the power and shape in this barrow. He's really robust in his ribshape and gets out on a stout lower skeleton, but get behind him and he's starting to push his hock outside the seams of his build and he's a bit rounder out of his hip.
	3	39	Nelson	Cisneros	Gonzales 4-H	260	This is a really lean, expressively shaped gilt. I'd like to lengthen her hip and she could use more time on feed to soften her center body and ultimately maximize her value.

4-H Swine Class 02	Class Placing	VSS ID #	First Name	Last Name	Club/Chapter	Ear Tag	Reason
	1	22	Derek	Domingos	Spring 4-H	569	This barrow is quick to surface in this class. He plants and pushes on an extra stout lower skeleton and comes and goes with the most dimension. Yet, where he truly excels is from the side because the young man does an excellent job displaying his superior design and look. Above all, he combines power with the right kind of build in the best package.
	2	31	Johnny	Nuno	King City Blue Ribbon 4-H	373	This is a really complete barrow who's super productive in his bodyshape and gets out on a stout and flexible foundation. I like his design from the side and he's still got plenty of muscle. I'd just like to clean him up a notch in his lower third and make him a bit more expressive in his topside shape.
	3	50	Kinley	Vanoli	King City Rural 4-H	457	I'm quick to tie into this gilt's design and look. She's level about her topline and and comfortable as she drives. She just needs a bit more shape to the center portion of her body and and as she leaves me, she could use more mass through her lower ham.
	4	79	Michelle	Martinez	King City Blue Ribbon 4-H	371	This barrow reads as a productive, easy feeding one who's the boldest in his ribshape and extra powerful up high. But I think this extra mass comes at the cost of some structural flaws. He's starting to push his hock to the edge of his skeleton and he's a bit quicker in his maturity pattern.
	5	6	Vivien	Cullen	King City Rural 4-H	433	This calico gilt reads as an easy feeding kind and the young lady does a nice job driving her. She's really productive in her center rib and still reads with enough mass from behind. I'd like to clean her up through her lower third and stouten her up at the ground.
	6	44	Elli	Cisneros	Gonzales 4-H	259	This is a big backed, stout hipped barrow who's lean and shapely composition should bode well at his end point. I'd like to see him leveler in his design with more bone down low to match his mass up high.

4-H Swine Class 03	Class Placing	VSS ID #	First Name	Last Name	Club/Chapter	Ear Tag	Reason
Reserve Supreme Champion & Reserve Champion 4-H Market Swine	1	23	Dylan	Domingos	Spring 4-H	570	This is a big chested, stout skulled barrow who reads with a lot of mass and shape up high and back through his hip. For his power, I still think he drives flexibly on his lower skeleton. He's a touch shorter out of his hip, but that's getting picky on a really complete one.
	2	75	Mia	Lopez	King City Blue Ribbon 4-H	368	This gilt strikes me as a fast growing, productive kind who's impressive bodyshape sets the base for a lot of mass up high. She's comfortable as she gets out and drives and I like her design from the side. She just needs to be more expressive in her topside shape and I'd like to open her up at the base of her skeleton.
	3	51	Jenna	Vanoli	King City 4-H	456	This is nice designed, heavy boned barrow who's comfortable on the go. I'd like to give him a shot more power up high and back through his hip and, getting critical, he tends to set down on the outer portion of his rear foot causing him to push his hock to the edge of his skeleton.
	4	57	Grace	Hearne	King City Rural 4-H	349	This is a big chested powerhouse of a barrow. He pushes the most shape and mass behind his blade and he's extra stout hipped. Unfortunately I think it comes at the cost of his build. He's straighter off of both ends of his skeleton and consequently more rigid in motion.
	5	42	Carlie	Johnson	King City Rural 4-H	443	I like the expression and shape in this calico gilt. She's long bodied and sets down on a stout set of feet and legs, but I'd like to loosen her spine a bit and make her more flexible in the way she uses her hip and hind leg.

4-H Swine Class 04	Class Placing	VSS ID #	First Name	Last Name	Club/Chapter	Ear Tag	Reason
Supreme Champion & Champion 4-H Market Swine	1	29	Julia	Nuno	King City Blue Ribbon 4-H	374	I really like the design and build in this barrow. He runs uphill as he plants and pushes on a stout foundation and doesn't sacrifice the mass and productive kind expected of a good market hog. Getting picky, I'd like to clean him up through his lower third.
	2	5	Adalyn	Jefferson	Chualar 4-H	225	This gilt's really fresh and expressive in her topside shape and I like that she's later in her maturity pattern. She plants comfortably on a stout lower skeleton, but she could use more mass up high and back through her hip, and I'd like to soften her center body.
	3	28	Gavin	Lanini	Spring 4-H	576	This is a big footed, stout boned barrow who's robust ribshape sets the base for a lot of mass and shape up high. Ideally, he could be longer and leveler out of his hip and more comfortable as he drives off of his rear skeleton and he toes in coming at me.
	4	69	Annabelle	Riddle	Carmel Valley 4-H	216	This is a stout boned, late maturing barrow who's really expressive in his muscle shape. I think his extension up front adds to his look from the side, but I'd like to soften him in his bodyshape and and loosen his spine and he gets out and drives.
	5	81	Jazmin	Loa	King City Blue Ribbon 4-H	366	This is stout hipped, heavy muscled barrow who's comfortable on the drive. He reads a bit more compact in his kind and I'd like to give him a shot of rib and bone to match his power.
	6	33	Lindy	Lafferty	San Benancio 4-H	536	This barrow's got a lot of power and shape. he's really opened up at his based, but from the side he strikes me a bit more compact in his kind. He's shorter hipped and could be more flexible in motion.
	7	11	Vince	Hayes	Spring 4-H	573	This barrow is really lean and expressive in his muscle pattern and I think his kind of composition will excel at his endpoint. I'd just like to stouten him up in his bonework and open him up all the way through.
	8	53	Addy	Cremers	Hilltown 4-H	337	This is a really extended barrow who reads with plenty of mass and shape. I'd like to stouten him up in his bonework and he needs to be squared up out of his hip.

4-H Swine Class 05	Class Placing	VSS ID #	First Name	Last Name	Club/Chapter	Ear Tag	Reason
	1	1	Avery	Munoz	King City Rural 4-H	448	This is a really productive, easy feeding kind of barrow. I like his body depth, but he needs more shape and expression all the way through.
	2	45	Megan	Weferling	Lockwood 4-H	465	This is a really extended, heavy boned barrow who reads later in his maturity pattern. He hits me as the fast growing kind, but I wish he was a bit more productive in his bodyshape with more muscle shape over his top.
	3	15	Isabella	Ramos	Carmel Valley 4-H	211	I like the design and extension in this calico gilt. She's neat up front and reads really lean and expressive in her muscle shape. I think more time on feed would help soften her center body and maximize her potential.
	4	66	Charlee	Riddle	Carmel Valley 4-H	215	This is a really powerful, opened up barrow that should open an impressive loineye at his endpoint. But he's more compact in his kind. He's starting to push his hock outside of his skeleton and I'd like to clean him up in his jointwork.
	5	52	Ian	Cremers	Hilltown 4-H	339	This Berkshire appearing barrow is heavy muscled and stout boned. I'd like to change him up in his design, he's a bit tighter spined and more restricted off of both ends of his skeleton.
	6	68	Nick	Bengard	Spring 4-H	568	This barrow's long bodied and lean in his composition. I'd lie to soften his center bodyshape and open him up all the way through.

4-H Swine Class 06	Class Placing	VSS ID #	First Name	Last Name	Club/Chapter	Ear Tag	Reason
	1	55	Cooper	Dougherty	Lone Tree 4-H	466	This is a really highly presented barrow that hits you hardest from the side. He's level designed and steps off a stout but flexible lower skeleton. Not to mention he's got plenty of power up high and back through his hip.
	2	26	Omar	Mendoza	Gonzales 4-H	268	This is an extra powerful, stout boned barrow who's really productive in his bodyshape. I think he hits you with an intriguing look from the side and the young man does a nice job driving him. Getting critical, he needs laid back in the angle of his blade.
	3	87	McKenna	Waterman	Paicines Clover 4-H	494	This is a fast growing, heavy muscled gilt. I like that she's more extended up front, but I'd like to set her neck higher on her blade and loosen her spine, along with making her stouter in her bonework.
	4	16	Avery	Ferrari	King City Rural 4-H	436	This is a lean, shapely gilt that's got lots of mass and shape up high. I wish she had more bone to match her topside mass and she's a notch shorter and rounder out of her hip.
	5	80	Ebony	Vega Politron	King City Blue Ribbon 4-H	391	This gilt is long bodied and heavy muscled. I like her expressive shape up high. She's a bit off in her topline and I'd like to soften her center body.
	6	86	Cade	Wheeler	Chualar 4-H	234	I like that this barrow is really level in his design and reads with a productive bodyshape. He just needs more mass and dimension all the way through to compete any higher in this class.

4-H Swine Class 07	Class Placing	VSS ID #	First Name	Last Name	Club/Chapter	Ear Tag	Reason
	1	38	Oliver	Cross	Sunnyslope 4-H	594	This is a big chested, stout footed barrow who's most impressive from the side. He's level designed but still plenty powerful and shapely in his muscle pattern. He could be a bit looser in the way he plants his hind leg, but he still gets out and goes well enough for me.
	2	88	Anahi	Martinez	King City Blue Ribbon 4-H	370	I like the extra power and shape in this barrow. He's bold and robust in his ribshape and it's clear he's been part of a good skincare program. However, he's a bit quicker in his maturity pattern and I'd like to make him longer and leveler back through his hip.
	3	7	Brianna	Dedini	King City Rural 4-H	435	This gilt reads fresh and expressive in her muscle shape and I like that she's later in her maturity pattern. She's just a touch rounder out of her hip and I'd like to stouten her up in her bonework.
	4	9	Peyton	Headley	Mission 4-H	475	This is a fast growing, heavy muscled gilt who reads fresh and expressive in her topside shape. She's level in her design and hits you with a good look, but I'd like to soften her in her center body and loosen her skeleton a touch.
	5	2	Hayden	Munoz	King City Rural 4-H	449	This is an easy feeding kind of barrow who's immensely productive in his bodyshape and I think he's got an intriguing design from the side. He needs cleaned up through his lower third and I'd like to make him more expressive in his muscle shape.
	6	37	Janesa	Lopez	King City Rural 4-H	447	This is an extremely powerful, shapely barrow. But he's too restricted off of both ends. He needs softened in his body shape and ultimately just needs to be more flexible in motion.

4-H Swine Class 08	Class Placing	VSS ID #	First Name	Last Name	Club/Chapter	Ear Tag	Reason
	1	17	Jack	Ussery	Buena Vista 4-H	205	I like the design and flexibility of this gilt. When she gets her head up, she hits you with a good look, but I'd still like to open her up down low and give her a bit more shape up high.
	2	12	Samuel	Ramos	Carmel Valley 4-H	213	This gilt is elevated at her blade and long bodied. She's productive in her ribshape and I like her added shape from behind, but she could use more bone to match her mass up high.
	3	67	Hunter	Vaccarezza	Mission 4-H	486	This is a big framed, stout structured gilt who's fairly level in her design. I think she needs some width at the base of her skeleton and she's a notch shorter out of her hip.
	4	54	eddie	Chambers	Hilltown 4-H	332	This is a big bodied, easy feeding gilt who reads with a good topside shape. She needs more width at the base of her skeleton and I'd like to give her a shot more bone.
	5	21	Emerson	Hostert	Spring 4-H	574	This is a fast growing, later maturing barrow who's got plenty of muscle. I wish he was more productive in his bodyshape and matched his width up high with more width at his base.
	6	61	Haylee	McVay	Chualar 4-H	226	I like that this barrow is soft and productive in his bodyshape and he's impressive as he comes and goes, But he's a bit compact in his kind and I'd like to make him longer and leveler out of his hip.
	7	82	Jazelle	Ochoa	Gonzales 4-H	270	This is a long bodied gilt who's flexible in her skeletal build, but I'd like to open her up at her base as well as make her bolder in her center body.

4-H Swine Class 09	Class Placing	VSS ID #	First Name	Last Name	Club/Chapter	Ear Tag	Reason
	1	19	Garhett	Atkins	Chualar 4-H	220	This barrow's stout, powerful and still hits you with a good look. I like that despite his dimension he still gets out and goes on a flexible build.
	2	74	Andres	Cervantes	King City Blue Ribbon 4-H	351	This fresh skinned, Berkshire appearing barrow is level designed and impressive in his topside shape. He leaves you with a lot of power, but he's a bit straight off of both ends of his skeleton and consequently gets tighter spined in motion.
	3	3	Brynn	Baxter	Spring 4-H	567	This is a big backed, stout hipped barrow that's bold in his ribshape. I'd like to set his neck higher on his blade and lengthen his hip to improve his design.
	4	71	Nathaniel	Flores	Mission 4-H	472	This gilt is long bodied and lean and expressive in her muscle shape. For me, she could be bolder ribbed and stouter boned.
	5	8	Dylan	Fitzpatrick	Carmel Valley 4-H	206	This gilt's got a great shape up high and I like that she's more extended, but I'd like her to be stouter in her bonework and leveler designed.
	6	4	Stefano	Goldman	Carmel Valley 4-H	207	This barrow's lean and shapely. He needs to be softer bodied and I'd like to loosen his spine.

4-H Swine Class 10	Class Placing	VSS ID #	First Name	Last Name	Club/Chapter	Ear Tag	Reason
	1	47	Jesse	Ledezma	King City Blue Ribbon 4-H	365	This barrow's really intriguing in his build and design. He's ultra flexible yet doesn't sacrifice power and dimension. Not to mention he's presented exceptionally well.
	2	20	Kai	Atkins	Chualar 4-H	221	This stout hipped, bold bodied barrow plants and pushes on a stout build and, when he gets his head up, exposes a level and impressive design as well. Ideally, he could be cleaned up through the lower third of his skeleton.
	3	89	Jessica	Martinez	King City Blue Ribbon 4-H	410	This gilt is really stout boned and flexible as she gets out and goes. From the side, I love her impressive bodyshape and design. I'd like to clean her up through the lower third of her body and give her some more topside shape.
	4	73	Matthew	Iverson	King City Rural 4-H	442	This is a level designed, sound footed barrow who's fairly massive up high. He could be more expressive in his shape and I'd like to clean him up in his rear joints.
	5	41	Madison	Hostert	Spring 4-H	575	This barrow's extra powerful and shapely. He should cut an impressive loineye, but he's a bit off in his topline.
	6	65	Amity	Hearne	King City Rural 4-H	438	This barrow's a power hog that's super wide and opened up at the base of his skeleton. Unfortunately he's shorter and rounder out of his hip and pushes his hock to the edge of his skeleton.
	7	84	Brayden	McIntyre	Carmel Valley 4-H	208	This barrow's the fast growing kind that comfortable on the drive. He needs to be looser spined and have a bit more muscle shape to compete higher in this class.

4-H Swine Class 11	Class Placing	VSS ID #	First Name	Last Name	Club/Chapter	Ear Tag	Reason
	1	27	Jonathan	Valdez	Gonzales 4-H	277	This is a big footed, stout boned barrow who's driver does an excellent job of presenting him. He's intriguing from the side because he's so elevated and extended ahead of his blade and the level designed barrow still has plenty of power. Getting picky, he could be more robust in his center ribshape and set back in the angle of his blade.
	2	34	Kayla	Silva	King City Blue Ribbon 4-H	388	This barrow's heavy muscled and stout made. I like that he's so opened up at the ground. He needs to be a bit looser spined and he's more rigid as he uses his hind leg.
	3	36	Miles	Urquides	Buena Vista 4-H	204	This is a long bodied, productive centered barrow who's sound footed on the go. He needs to be cleaned up in the lower third of his skeleton and more shapely up high.
	4	25	Riley	Whisler Tyler	Carmel Valley 4-H	214	This is a powerful, shapely barrow who leaves me with a stout hip. He's just a bit tighter spined and he's starting to push his hock outside the seams of his skeleton.
	5	90	Alexander	Sewell	Chualar 4-H	230	This barrow's productive centered and reads with plenty of mass over his loin and back through his hip. I'd like to freshen him up in his shape and make him more flexible in his rear skeleton.
	6	10	Olivia	Ramos	Carmel Valley 4-H	212	This barrows really tall at his blade and extended from their forward. I like that he's so flexible in his skeleton as well, but from a design standpoint he's a bit off right behind his blade and I'd like to stouten him in his bonework.
	7	85	Savannah	Wheeler	Chualar 4-H	235	This is a fast growing barrow who's tall bladed and long bodied. I wish he'd better utilize his skeleton with more muscle mass and shape as well as a bit more dimension through his base.
