

DEPARTMENT 3 PRESERVED FOODS

All entries must be home prepared and canned or packaged by the exhibitor within one year of the opening date of the fair. Items shown at previous fairs are not eligible.

No paraffin seals. All canning must be in sealed jars and have canning rings. There should be no decorations of any kind on the jars.

All vegetables, meats, poultry and fish must be canned under pressure. Low acidic fruits should be canned to specifications as directed in the University Agricultural Extension Service leaflet "Home Canning of Fruits." Tomatoes and fruits (not including their juices) must be processed in a boiling water bath.

Exhibitors should loosen rings (not lids) on jars that might be opened. Jars will be disqualified if they cannot be opened with reasonable effort. All products being considered for cash awards, which have not otherwise been eliminated from consideration, will be opened. All containers are to be glass, quart, pint, ½ pint or jelly jars (4 oz) unless otherwise stated. Freeze-dried or "food saver" packaging should equal 1 cup.

All exhibits must be accurately labeled with only the following information: (1) contents; (2) date of processing; (3) process used; (4) and processing time. Exhibits without this information may be disqualified.
