

Judging at the Tanana Valley State Fair is accomplished through a network of volunteers. Judges are recruited & chosen for their expertise in a particular area, and it is through their generous donation of time & knowledge that we are able to showcase your achievements. Judges are trained by the superintendents & through the Fair Office to follow the guidelines set down by the Fair Association. They are expected to:

- be fair & consistent in their judging;
- provide positive comments & constructive criticism to the exhibitor;
- follow the Fair Association's mission to educate participants through their evaluation.

Each exhibit must have a completed score sheet. These score sheets are for the education of the exhibitor only & are not for public view. An exhibitor may request to see a score sheet for any of their entries by asking the exhibit attendant on duty, asking the superintendent, or requesting assistance through the Fair Office.

Although our judges work hard to provide a positive experience for the exhibitor, sometimes there can be discrepancies or inconsistencies. If so, the exhibitor is encouraged to contact the superintendent who can investigate the problem. If necessary, the exhibitor may file a protest through the Exhibit Office. A \$25.00 fee must accompany any protest filed. Please refer to the Exhibitor's Guide for more information regarding this procedure.

Security

You are encouraged to enter your best work. The Competitive Exhibits team (staff, superintendents, judges and volunteers) recognizes the value these hold and every effort is made to provide for their security. Each building has a team of volunteers to watch over the exhibits and to make sure they are not handled or stolen. However, because of the volume of entries we get each year, we cannot guarantee the safety of each exhibit.

Questions????

We have tried to create a lot for everything, but if you cannot find an appropriate lot in which to enter an item, please contact the Division Superintendent. He or she can help you in selecting the appropriate lot, or add lots as needed. Superintendents' names and telephone numbers are listed in the Exhibitor's Guide. Be sure to contact them before Entry Day.

If you are unable to reach the superintendent, the Fair's Exhibit Office is here to help. Call between 9am and 5pm Monday through Friday - 451-5548 / 452-3750 or e-mail exhibits@tanavalleyfair.org.

TANANA VALLEY STATE FAIR

Division 23 Exhibitor's Handbook

Welcome to Competitive Exhibits!

As an exhibitor at the Fair, you are entering into a long-standing tradition of education and competition that began in the Tanana Valley in 1924. Your primary source of information about entering an exhibit is through the Exhibitor's Guide, available online or at the Fair Office.

Entry Guidelines

PICK YOUR BEST. You are invited to enter several exhibits in the *Reduce Reuse Recycle!* Division. However, each exhibit must be in a separate lot (general fair rules state that you may enter only one exhibit per lot). Choose items which best demonstrate your skill and knowledge.

PREPARE YOUR ENTRY. Present your exhibit in the best way possible. Select the items you are going to enter and have your exhibit tags ready well before entry day.

TELL US ABOUT YOUR ENTRY. Exhibits in the *Reduce Reuse Recycle!* Division are required to have an attached card or piece of paper that explains the entry. On this card, please list all the materials in your exhibit that reduce waste or that have been re-used or recycled from other items. For example, if you are submitting a song you have written about recycling aluminum cans, your card of explanation might look like this:

EXPLANATION CARD

Items that are recycled in my exhibit:

My song encourages people to recycle aluminum cans.

Items that are re-used in my exhibit:

My song is written on the back side of a colorful piece of cardboard that was previously used to advertise a garage sale.

About This Division

The *Reduce Reuse Recycle!* Division is housed in the Kiwanis Agricultural Hall. We encourage exhibitors to make innovative entries. Entries may be actual items, or they may be models, pictures, essays, plans or proposals. This division was designed to get your creative juices flowing, and to tap into your imaginations and talents. Share your ideas, your inventions, and your viewpoints. Show with words or with examples how Alaskans can *reduce, reuse and recycle!*

REDUCE, REUSE & RECYCLE

Specific Class And Lot Instructions

Class A – Reduce! To *reduce* means to use fewer things and produce less waste. *Reduce* by repairing broken items rather than buying new. *Reduce* by using a durable object instead of a disposable one. *Reduce* by coming up with a plan to use less energy.

Class B – Reuse! To *reuse* means to use something again and again instead of throwing it away. *Reuse* an item by using it again for its original purpose, or by inventing a new use for it.

Class C – Recycle! To *recycle* means to break down an item into its original components, which are then reconstructed into something useful. You *recycle* old paper when you blend it with water and glue to make new paper, or when you compost yard waste into new soil. You might aid recycling efforts by making a collection bin, or inventing something new to be made from recycled materials.

All Lots - Follow the general instructions provided to you by the lot number you wish to enter. For example, you might choose to enter a lot that asks you to “write an essay, song, poem, or story.” Your essay or song may be as long or as short as it needs to be in order to present your ideas and thoughts effectively. Maybe you will choose to enter a lot that asks you to create an item from reused materials, or that requires you to invent an item made from recycled materials. You are free to use whatever methods and materials you choose! *Use your imagination!!!*

Nine-Lives!

What are 9 ways that 1 item can be reused?

Class B Lot 9 is category designed to challenge your creativity! Think about *nine* different ways that *one* item might be re-used. Create a poster or display, or write a report about your ideas.

If you feel stuck, or if you need help in deciding which lot your entry best fits, please contact the Division Superintendent. He or she can aid you in selecting the appropriate lot, or might add lots as needed. Superintendents' names and telephone numbers are listed in the Exhibitor's Guide.

Judging Criteria

Exhibits will be judged on ingenuity and originality; quality; and amount of content that reduces, reuses or recycles. A card that explains the exhibit should be attached to each entry. This card should list all the materials in the exhibit that reduce waste or that have been reused or recycled from other items.

Sample Score Sheet:

Tanana Valley State Fair
DIVISION 23 - REDUCE, REUSE, RECYCLE!

Exhibit Tag # _____ Class _____
Fair ID# _____ Lot _____
Judge _____

Ingenuity and Originality										
(cleverness and freshness of concept or design):										
1	2	3	4	5	6	7	8	9	10	
Quality										
(degree of excellence of craftsmanship):										
1	2	3	4	5	6	7	8	9	10	
<u>Amount reduced/reused/recycled by item or idea:</u>										
1	2	3	4	5	6	7	8	9	10	
Low					medium				high	
<u>Did exhibitor attach a card that sufficiently explains the entry?</u>										
+	-									
yes	no									
										TOTAL SCORE:
										Perfect score = 30+
