

PAPER FISH

A STEP BY STEP CRAFT TUTORIAL

Paper Fish Tutorial Part I

1

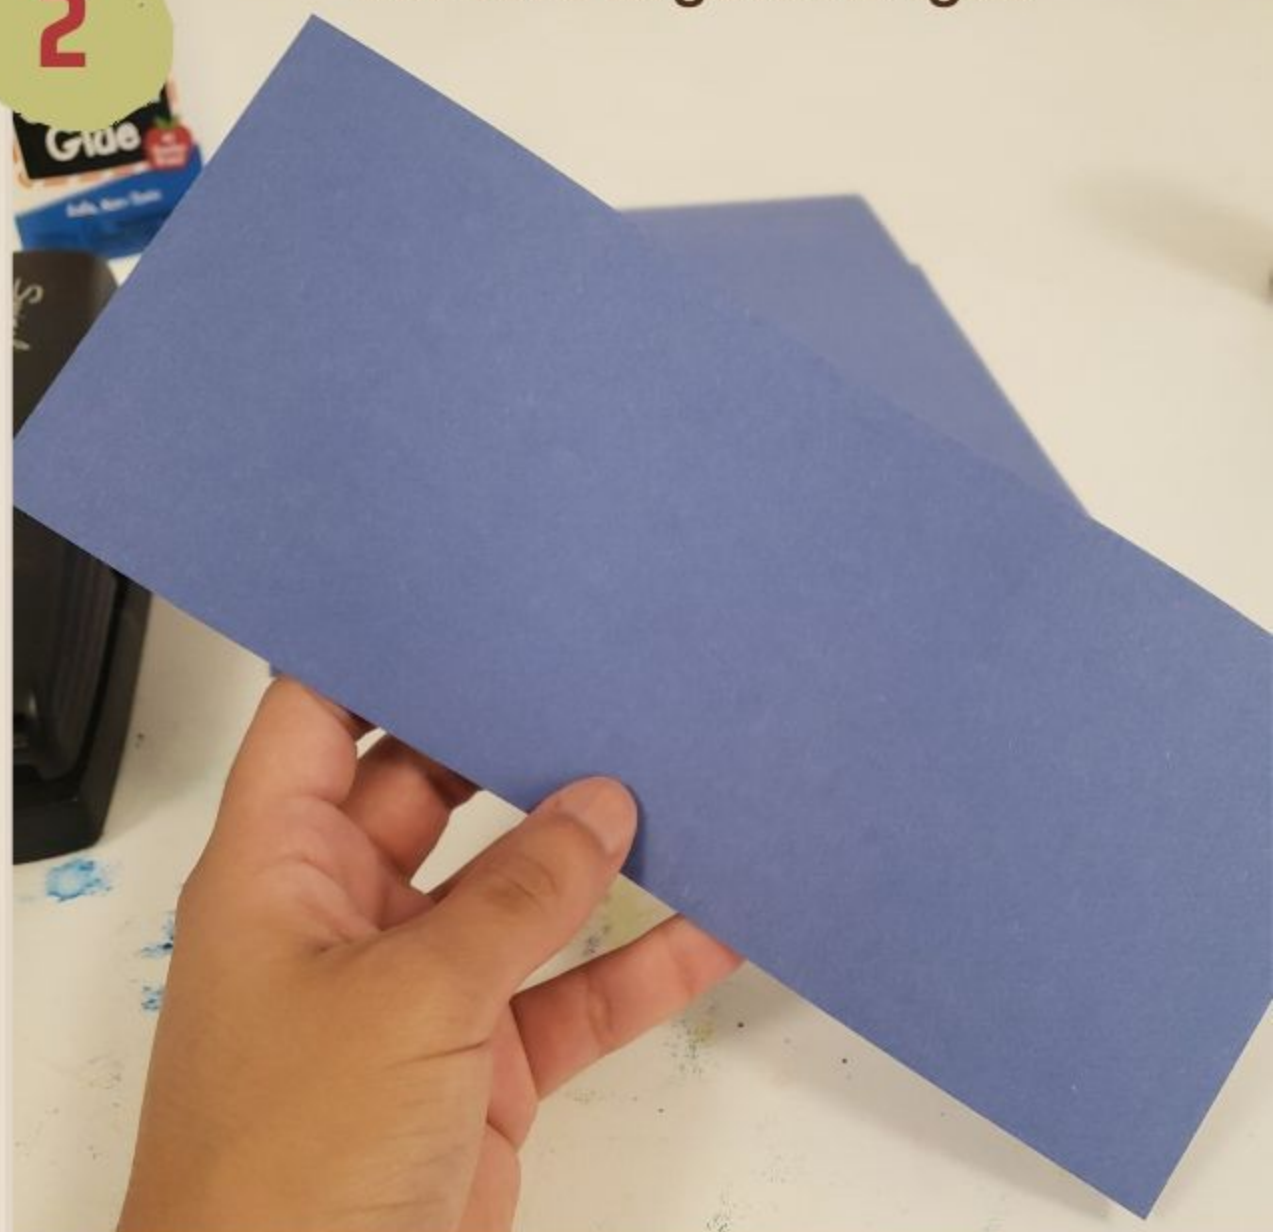

Materials:

- Glue
- Construction paper
- Googly eyes
- Scissors
- Pencil
- Glitter
- Stapler

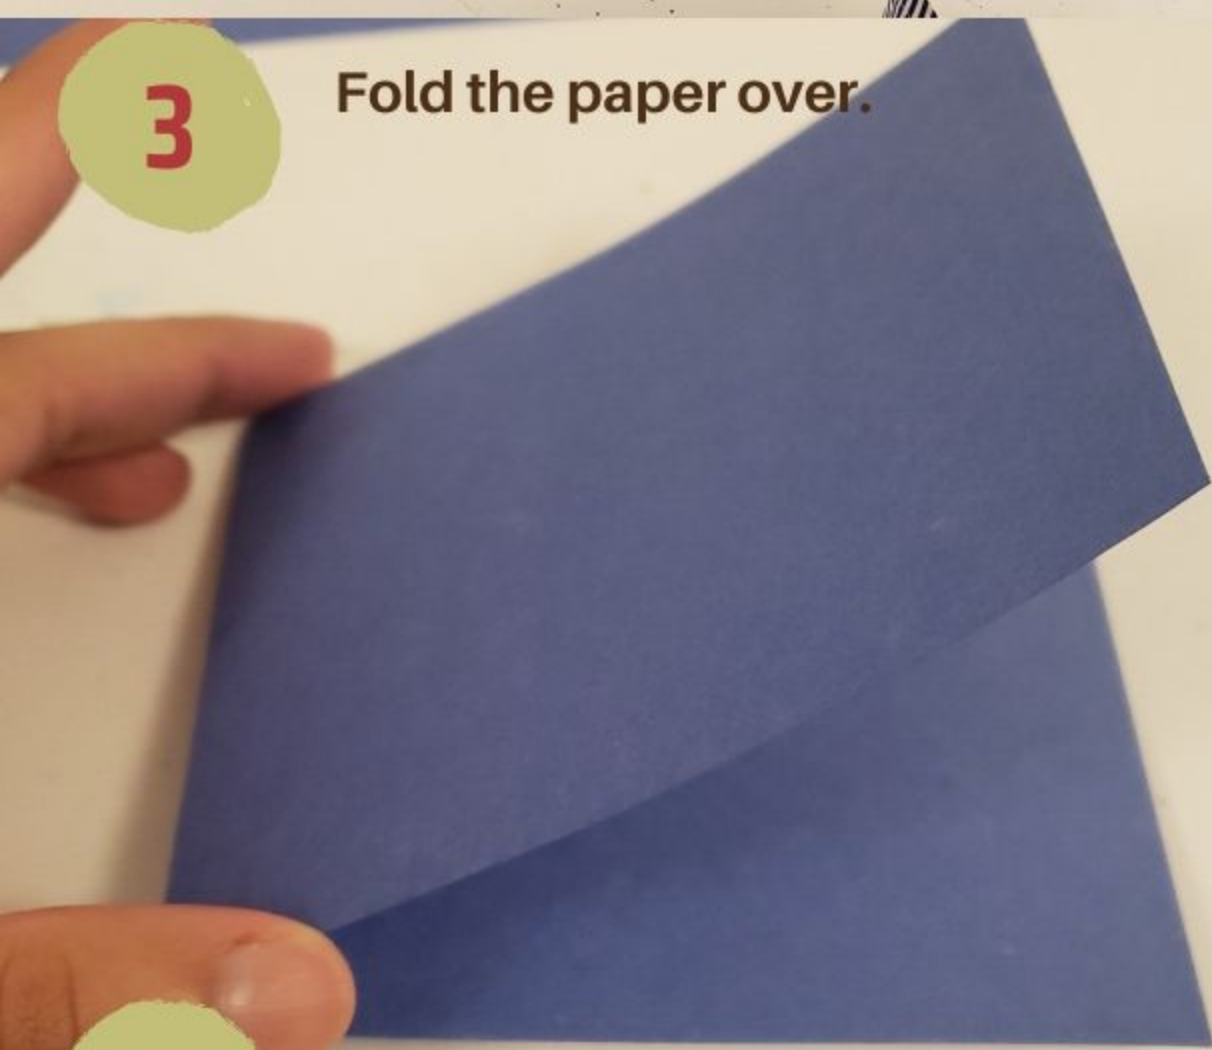

2

Cut out a large rectangle.

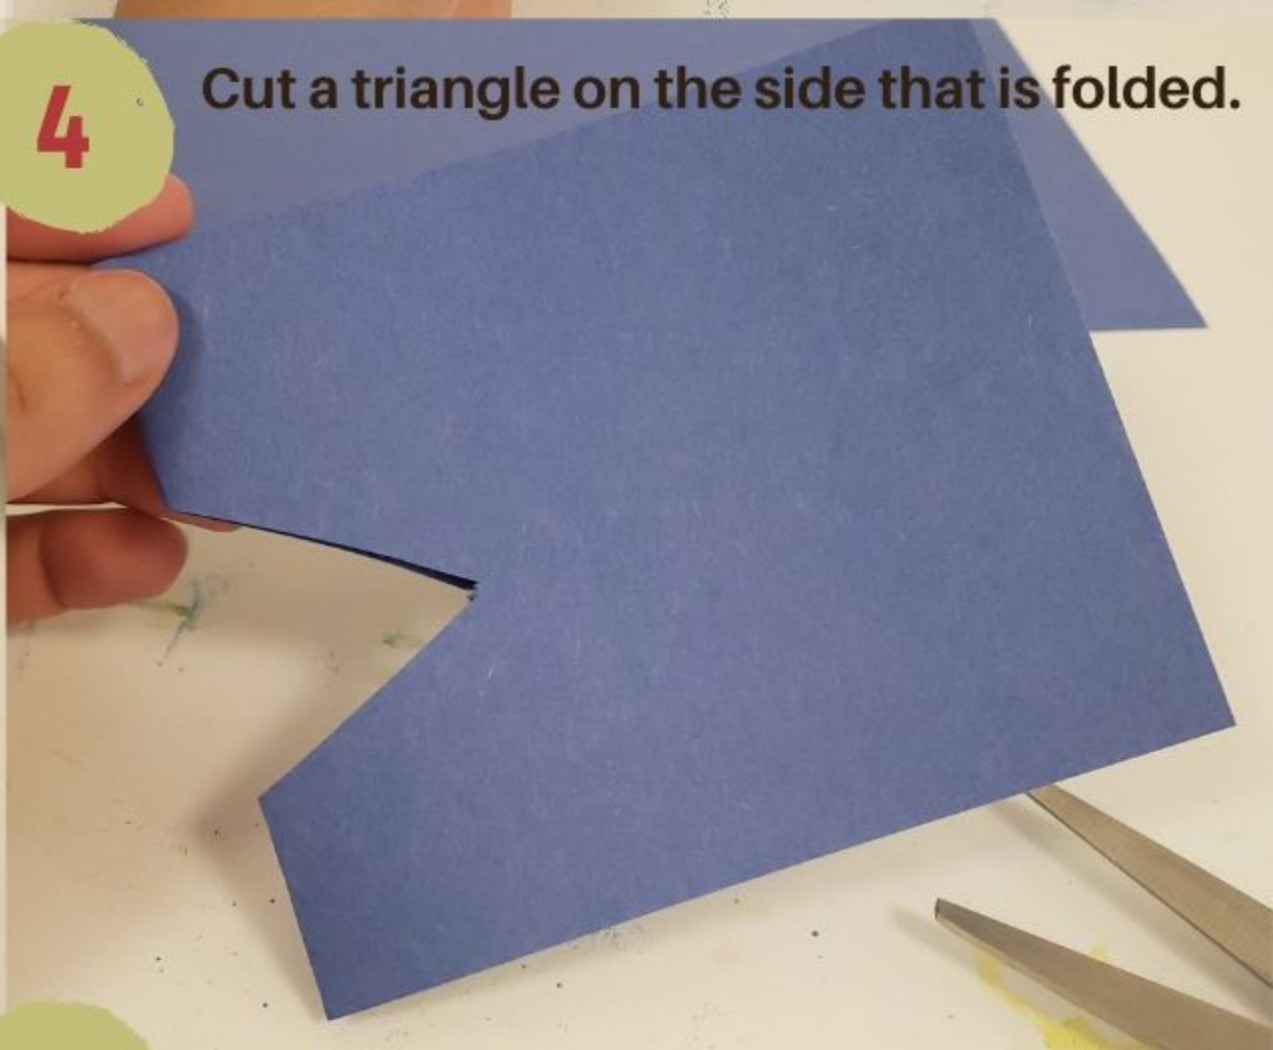

3

Fold the paper over.

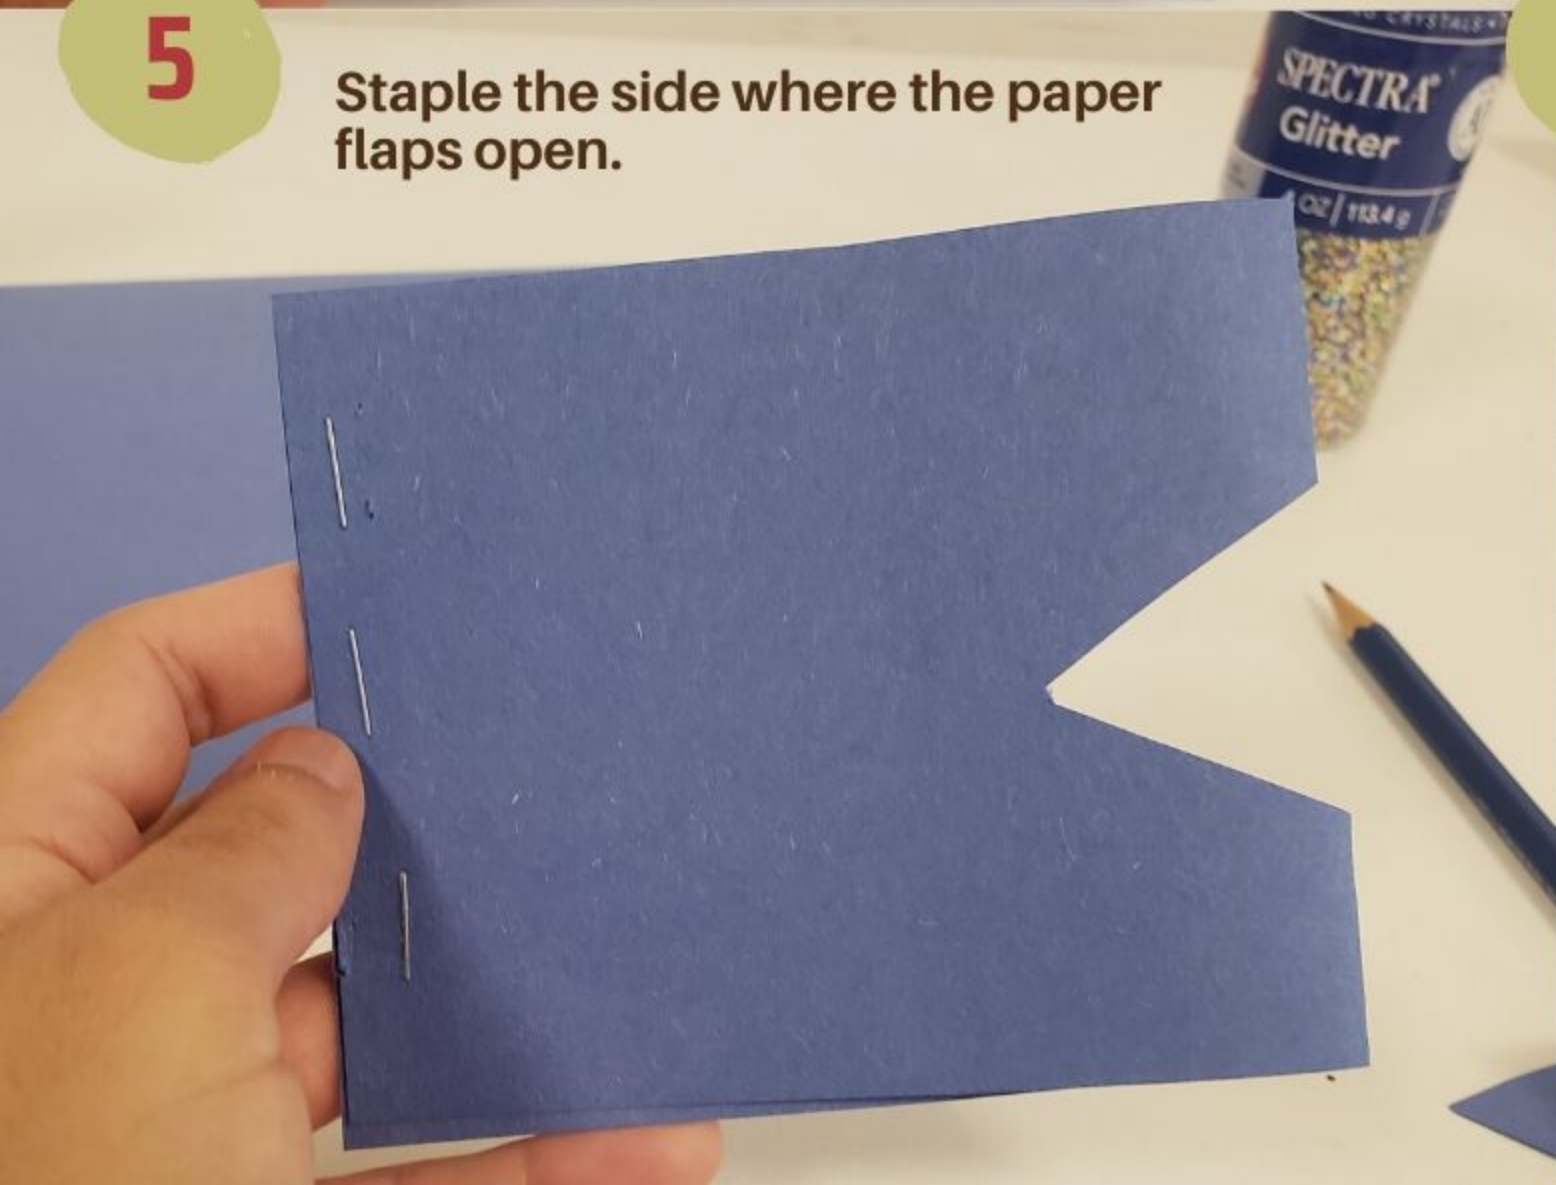

4

Cut a triangle on the side that is folded.

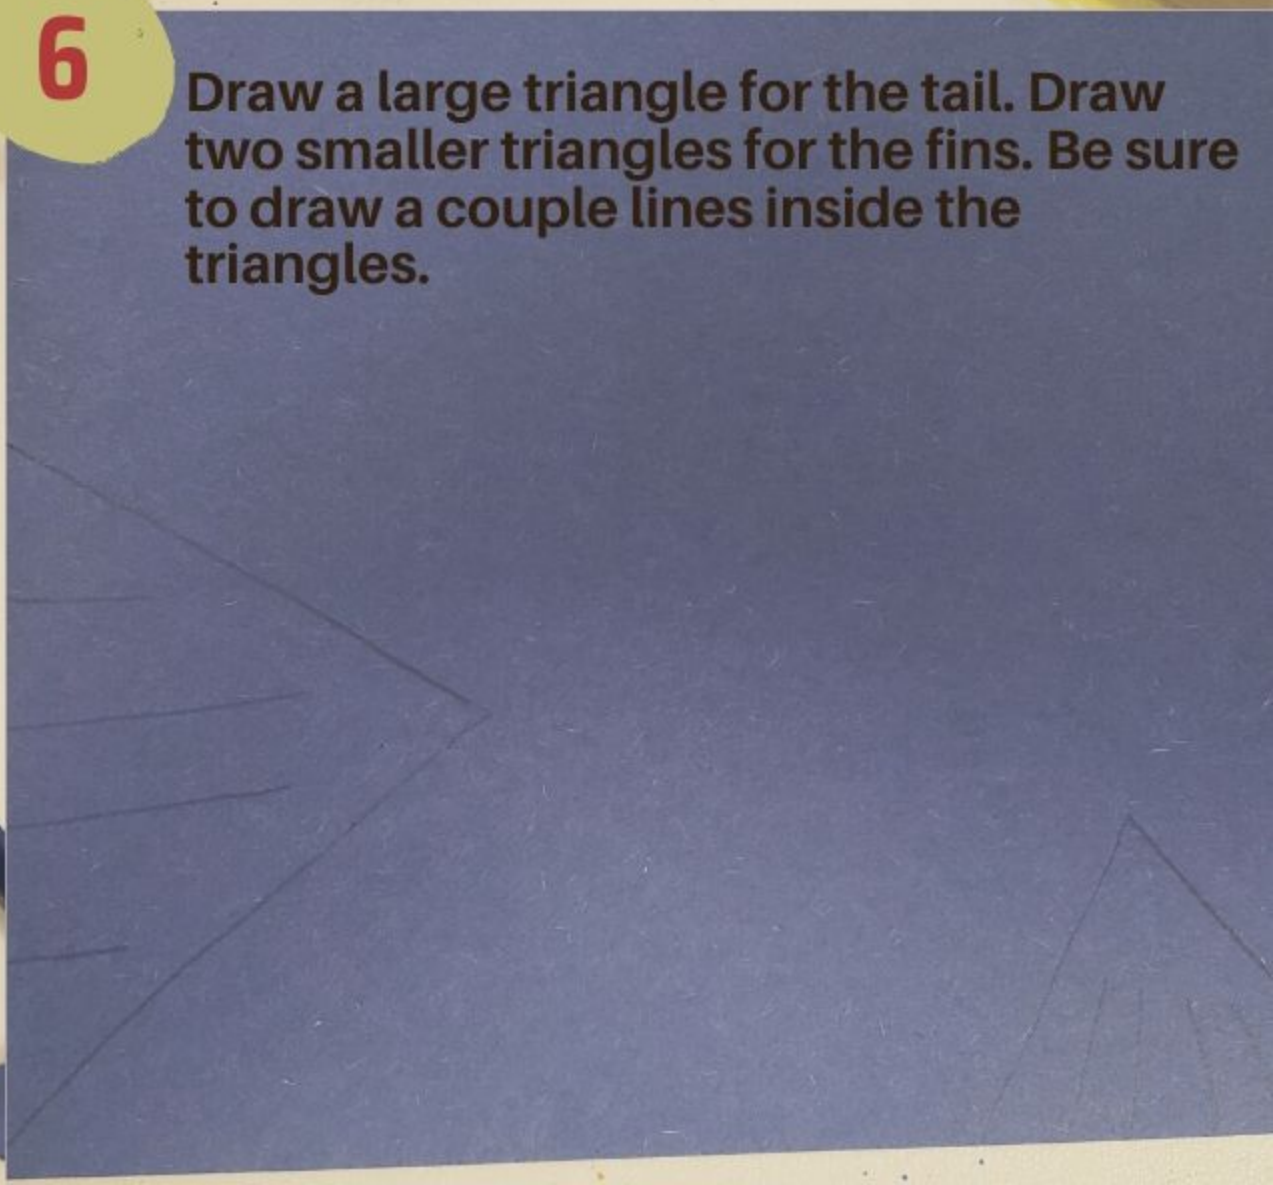

5

Staple the side where the paper flaps open.

6

Draw a large triangle for the tail. Draw two smaller triangles for the fins. Be sure to draw a couple lines inside the triangles.

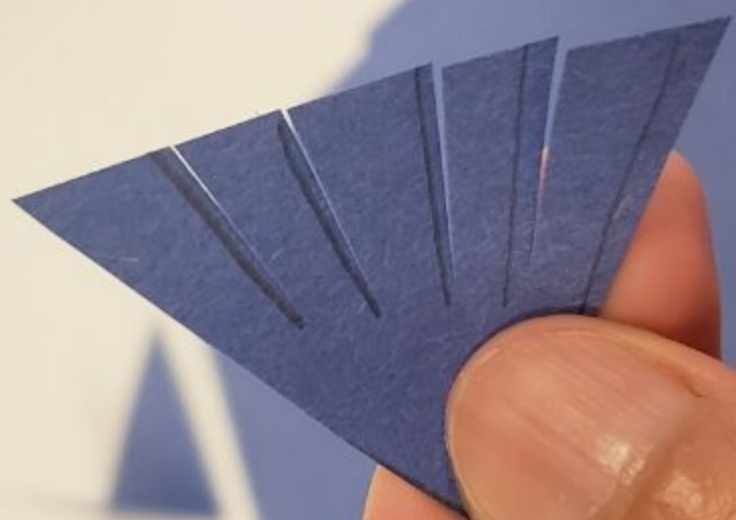

Paper Fish Tutorial Part 2

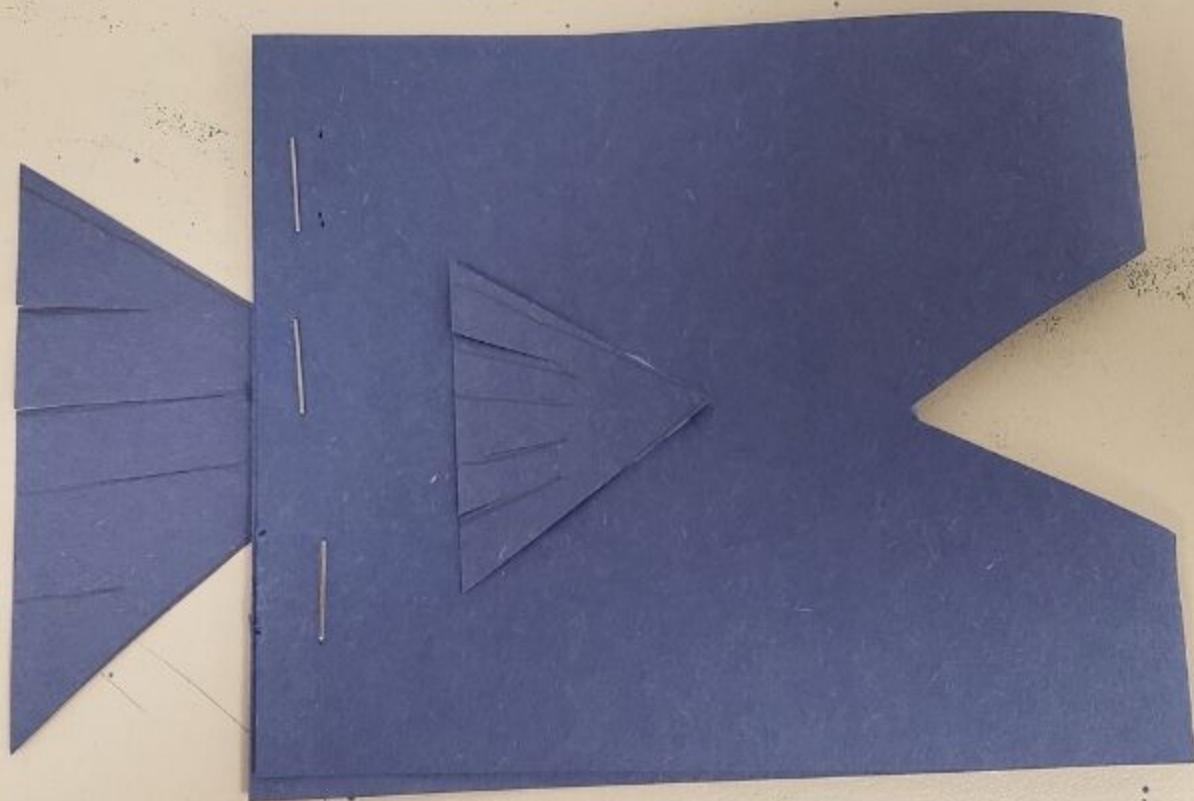

7

Cut out the fins & tail. Cut along the lines you created so the pieces appear frayed.

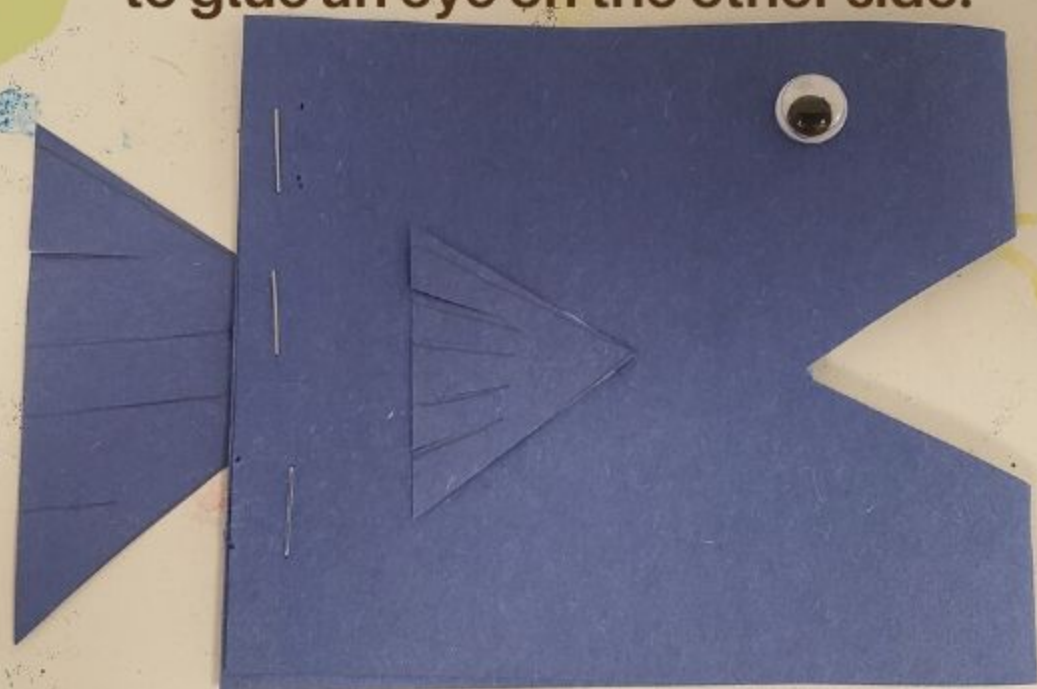

8

Glue the fins halfway between the mouth & staples. Glue the tail under the body.

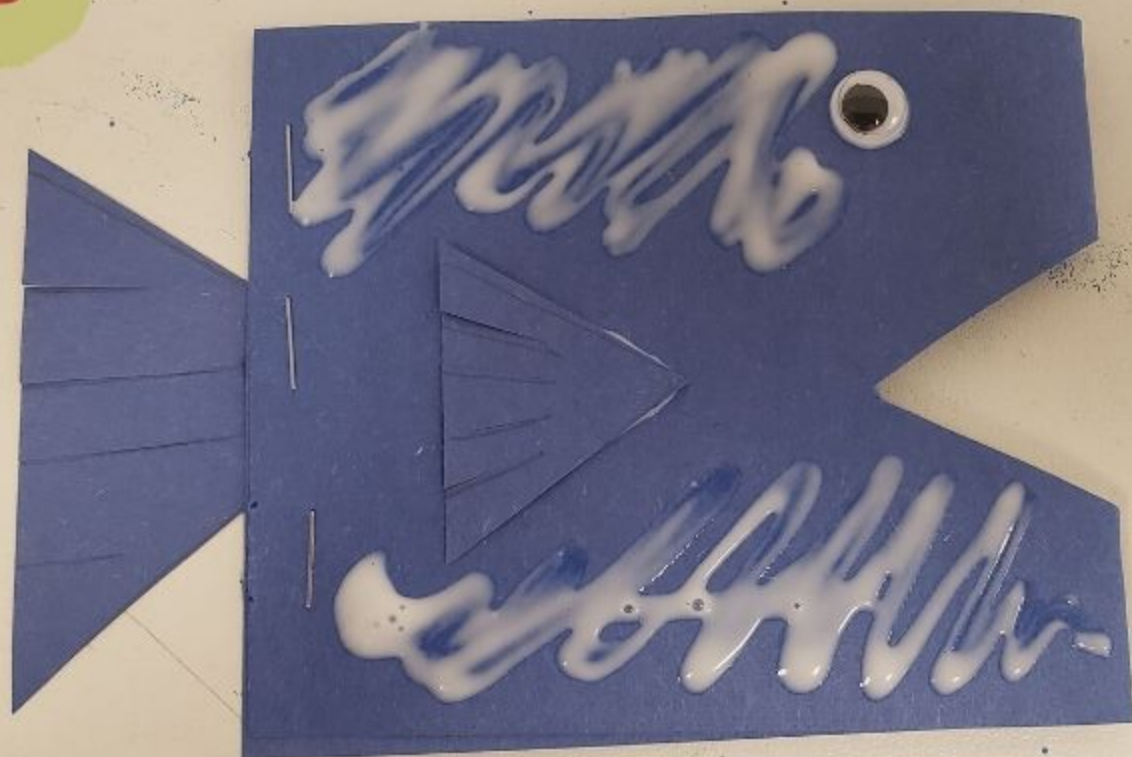

9

Glue the googly eyes on. Don't forget to glue an eye on the other side.

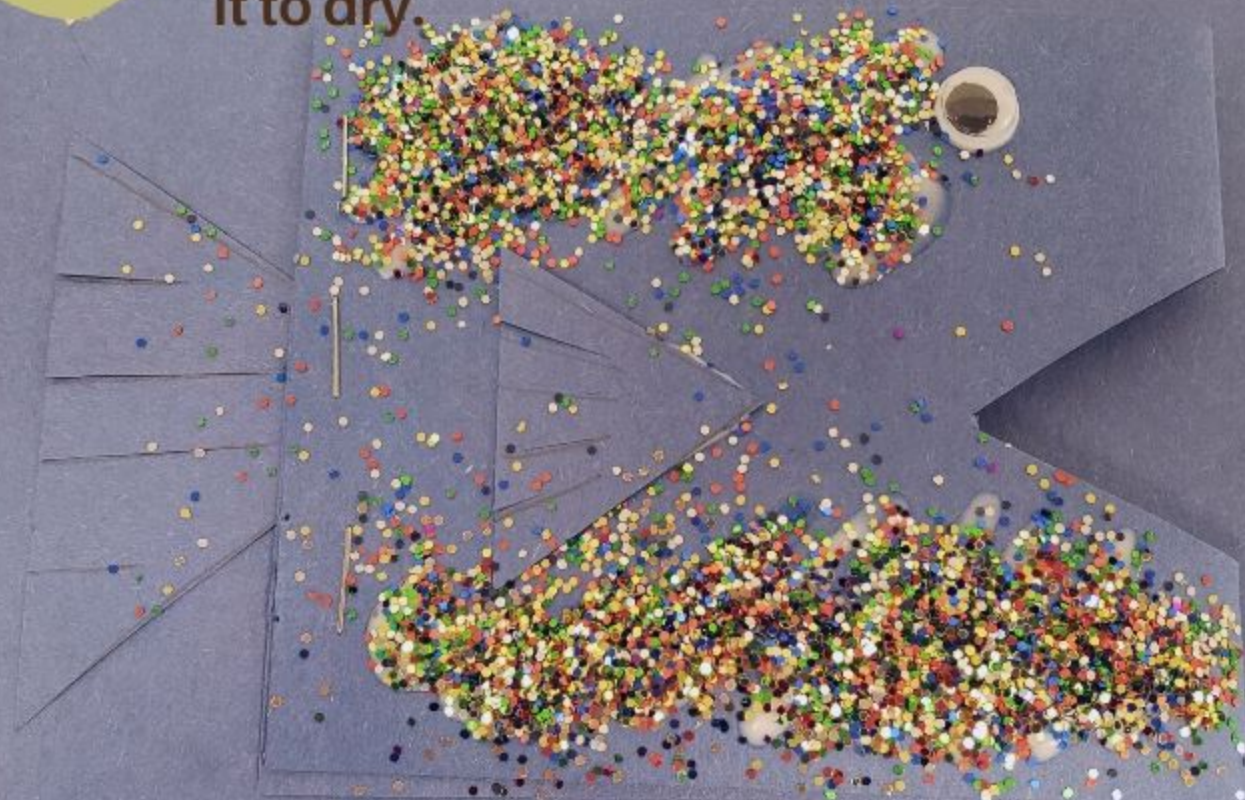

10

Apply the glue in zigzag-like pattern.

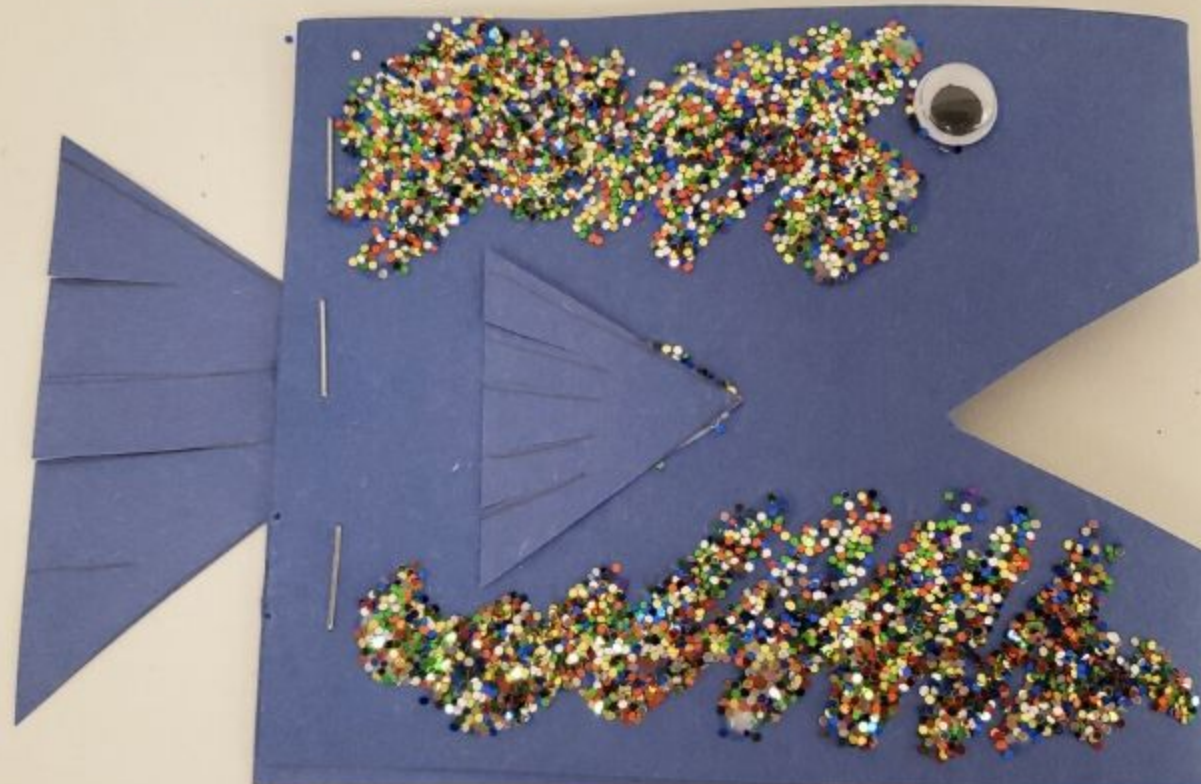

11

Add glitter on top of the glue. Wait for it to dry.

End
Result

Carefully lift the fish & gently shake off the loose glitter over a trashcan.

Enjoy!
