March 2018

Dear Fond du Lac County Fair Food Stand Operator:

All food vendors will be inspected during the first few days of the fair and sporadically throughout the duration of the fair. Fond du Lac County Health Department (FDLHD) will allow the sale of food to the public prior to licensing/inspection if the food stand meets the requirements of the State of Wisconsin Food Code. Upon inspection by the FDLHD, the food stand must be code compliant, obtain a permit if not already permitted and have an inspection completed. If a stand is found to be in noncompliance, the stand will have to close until all requirements are brought into compliance.

A temporary restaurant or mobile food establishment license cost is \$139.00 and an inspection fee is \$75.00. FDLHD will accept temporary restaurant and mobile food establishment licenses from DATCP (Department of Agriculture, Trade and Consumer Protection). You are required to provide a copy or proof of a current license to the FDLHD at the time of the inspection. Without proof or a permit you will be required to pay the FDLHD license fee.

If you are a non-profit organization such as youth group, church, and/or service club serving food you do not require a permit unless operating the stand more than 3 days in a *license year. Non-profit stand operating 4 or more days in a *license year must be licensed.

Fill out the enclosed application and send it to us ahead of time with payment.

If you have any questions, please call 920-929-3085 and ask to speak with a Public Health Sanitarian.

Sincerely,

Danielle Vollendorf, RS
Inspection Program Supervisor
